Pre-install

Back Up National Reminder Immunization Dialogs Immunization Entries

You will need to review the orders and menus that are linked to the dialog elements or groups in national dialogs so that they can be replaced after the dialogs have been installed.

Sites should back up dialog elements/groups that contains orders so that they will not need to recreate the orders mapping in the post-install. The instructions below give an example of how to back up the known national dialog elements/groups that may contains local ordering mappings.

These instructions show you how to create a reminder exchange file entry with the order options from the national immunization reminder dialogs:

1. On the Clinical Reminders Exchange screen, at the "Select Action" prompt, enter "CFE" for Create Exchange File Entry.

Example – Create Exchange File Entry Action

Reinstall Backup Reminder Exchange File from the Pre-Install Step

1. Reinstall all dialog elements after the Immunization Reminder dialogs have been updated in order to restore all the local orders and menus to the dialogs. An example of reinstalling the dialog elements packed up in pre-install steps is listed below.

    a. On the Exchange File Components screen, at the "Select Action" prompt, enter "IS" for Install Selected Component.

    b. At the "Select Component(s)" prompt, enter the appropriate component numbers in the Reminder Dialog section. You will ONLY install the reminder dialogs. In the example below, the component numbers are 10-18, yours may differ.

    Example – Exchange File Components screen

2. Review the COVID-19 dialogs to make sure only the vaccine options that your site administers show as available to administer.
    a. Disable any dialog groups for vaccine types not in use at your site – E.g. if you are exclusively a Moderna & Janssen site, then disable the reminder dialog groups for Pfizer.   Possible groups are listed below:

    VAL-SARS-COV-2 VACCINE ADMIN C2 GP →this is MODERNA Monovalent
    VAL-SARS-COV-2 VACCINE ADMIN D2 TS GP →this is PFIZER Monovalent Tris Sucrose

VAL-SARS-COV-2 VACCINE ADMIN A1 GP →this is Janssen
VAL-SARS-COV-2 VACCINE ADMIN B1 GP →this is NOVAVAX
VAL-COVID-19 BOOSTER ACTIONS ADMIN TODAY

3. Enable reminder dialog `VA-MONKEYPOX`.
This dialog will install disabled. You will need to edit the dialog and remove the disable.

Using the Vista menu, DM   Reminder Dialog Management, DI   Reminder Dialogs,
search for and find/open the reminder dialog VA-MONKEYPOX. Edit and remove
DISABLE AND SEND MESSAGE from the DISABLE prompt:

Select Item: Next Screen// ED   Edit/Delete Dialog

4. There is a reminder dialog element used in the national clinical reminders for
   immunizations to display a message when no lot numbers are available for a
   vaccine. That reminder dialog element can be edited to include local information on
   what to do if your facility does not have lot numbers available. This message is in
   addition to the setting for the VIMM form that you may have set earlier.

   The reminder dialog element name is VAL-GP IM NO LOT #S AVAILABLE and it
   includes the template field IM PHARMACY PHONE NUMBERS. You can edit the
   template field or the reminder dialog element to include site specific information.
