NOTE: All reminder dialog changes are included in Reminder Dialog Group: VA-GP MISC UPDATE 15

A number of the items below are Elements or Groups that are set with a class of 'national'. To confirm updates made on any 'national' dialog element or group, choose the INQ (Inquiry/Print) option in the Reminder Dialog Management Menu.

1. Reminder Dialog ELEMENT: VA-COMM CARE CIH TEMPLATE FIELD

Change Made: Community Care edited a template field hyperlink that resides within their Community Care-CIH Acupuncture consult. The updated hyperlink now points to the correct SharePoint.

BEFORE:

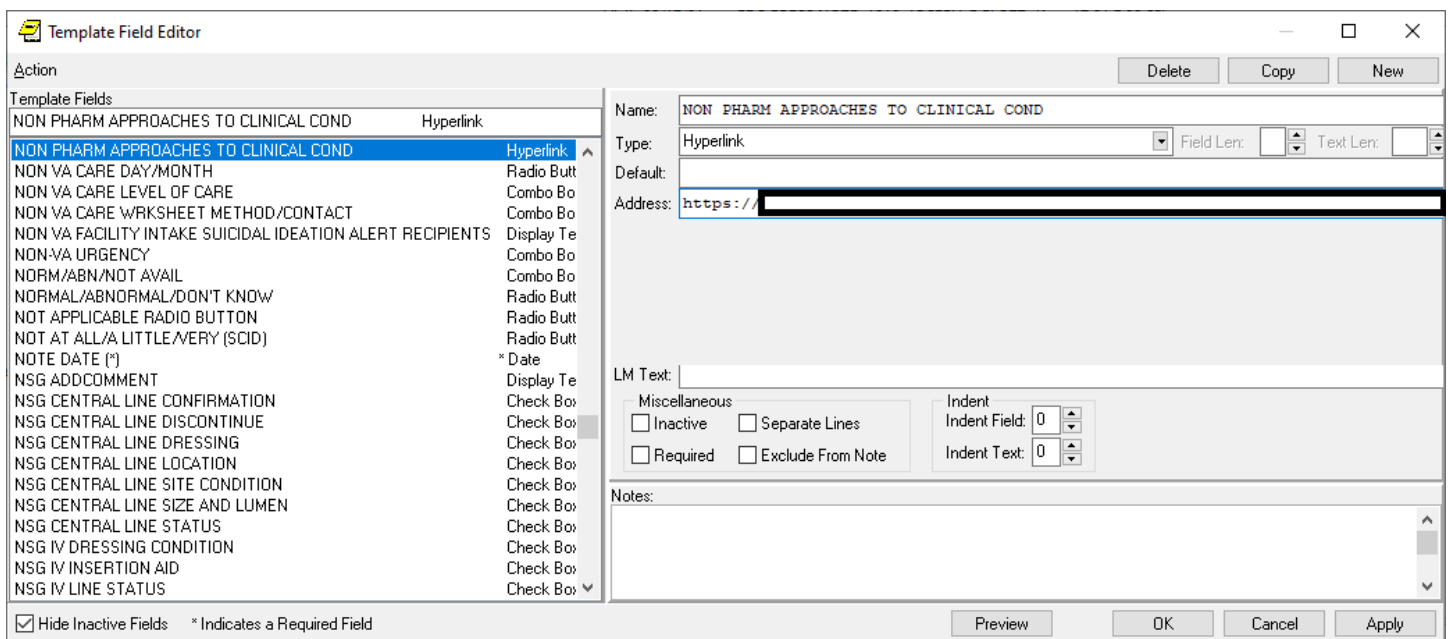

This ELEMENT (**VA-COMM CARE CIH TEMPLATE FIELD**) is new, and was created specifically to include this updated template field for community care.

AFTER:

2. Reminder Dialog ELEMENT: VA-TELESTROKE PROVIDER TYPE FIELD

Change Made: This Element was created to ensure the {VA-PROVIDER TYPE} field, used in the VA-TELESTROKE RN TRIAGE-ACUTE STROKE dialog, is installed. The template field failed to pack with the original installation even though it does reside in the dialog text. Installation of misc. update 15 will ensure the template field is installed and displays properly on the dialog.

BEFORE:

This ELEMENT (**VA-TELESTROKE PROVIDER TYPE FIELD**) is new, and was created specifically to include the {VA-PROVIDER TYPE} template field for Tele stroke.

AFTER:

Reminder Dialog Template: Va-Telestroke Rn Triage-Acute Stroke

Telestroke RN Triage - Acute Stroke - Version 1.2

IDENTIFYING INFORMATION:

Local date/time of call: *| _____

Caller Information:

Name of Caller: * _____ , * MD RN

Direct Telephone Number of Provider: * _____

Physician caring for the patient during the code stroke:

Dr. * _____

Location in VA facility:

Emergency Department

3. Reminder TERM: VA-AGE <40!>71

Change Made: The 'condition' was edited from **I V<40!(V>71)** to **I V<35!(V>71)** to evaluate at age 35 vs. 40.

This term is used as branching logic in the VA-CRC SCREEN reminders.

BEFORE:

VA-AGE <40!>71

Class: LOCAL
Sponsor:
Date Created:
Review Date:

Description:

Used as branching logic in the VA-CRC Screen reminders. The term will be evaluated as true if the patient is <35 or >71 years old. This was updated in May 2021 with new CRC screening guidance. The original version was true if the patient was <40 or >71, hence the name.

Findings:

Finding Item: VA-AGE (FI(1)=CF(24))
Finding Type: REMINDER COMPUTED FINDING
Condition: **I V<40!(V>71)**

8. Reminder Dialog ELEMENT: VA-MH PCL-5 WEEKLY

Change Made: PCL5 weekly scores were not populating correctly in the note. It should just be the total score populating versus all item scores.

This element resides in reminder dialog: VA-MH PEI 3RD SESSION and other dialogs

BEFORE:

Assessment:

PCL-5 Weekly

The score was 2.

Interpretive Statement:

PCL-5 weekly has a total score range of 0-80, with higher scores indicating greater PTSD symptom severity.

0-10: no or minimal symptoms reported

11-20: mild symptoms reported

21-40: moderate symptoms reported

41-60: severe symptoms reported

61-80: very severe symptoms reported

1. Repeated, disturbing, and unwanted memories of the stressful experience?

Not at all

2. Repeated, disturbing dreams of the stressful experience?

Not at all

3. Suddenly feeling or acting as if the stressful experience were actually happening again (as if you were actually back there reliving it)?

Not at all

4. Feeling very upset when something reminded you of the stressful experience?

Not at all

5. Having strong physical reactions when something reminded you of the stressful experience (for example, heart pounding, trouble breathing, sweating)?

Not at all

6. Avoiding memories, thoughts, or feelings related to the stressful experience?

Not at all

7. Avoiding external reminders of the stressful experience (for example, people, places, conversations, activities, objects, or situations)?

Not at all

8. Trouble remembering important parts of the stressful experience?

Not at all

9. Having strong negative beliefs about yourself, other people, or the world (for example, having thoughts such as: I am bad, there is something seriously wrong with me, no one can be trusted, the world is completely dangerous)?

Moderately

10. Blaming yourself or someone else for the stressful experience or what happened after it?

Not at all

11. Having strong negative feelings such as fear, horror, anger, guilt, or shame?

Not at all
