# REMINDER UPDATE_2_0_258 VA-MISC UPDATE 16 CHANGES

NOTE: All reminder dialog changes are included in reminder dialog group: <mark>VA-GP MISC UPDATE 16</mark>

*Note: To confirm updates made on any 'national' dialog element or group listed below, choose the INQ (Inquiry/Print) option in the Reminder Dialog Management Menu.*

## Contents

# 1. Reminder Dialog ELEMENT: UPDATE VIS DATES OCT-2021

Change Made:  Vaccine Information Statement (VIS) dates have been updated to be current. Installation of this element will update the VIS dates included in national reminders.  The list of VIS date template fields updated are in the 'after' section below.

BEFORE:
This ELEMENT (**UPDATE VIS DATES OCT-2021**) is new, and was created specifically to include these updated template fields for Hepatitis A and Hepatitis B Vaccine VIS dates.

AFTER:
```
NAME: UPDATE VIS DATES OCT-2021  Replace
DISABLE:
CLASS: LOCAL//

Additional findings: none
Select ADDITIONAL FINDING:
DIALOG/PROGRESS NOTE TEXT:
{FLD:IM VIS HAV DT}
{FLD:IM VIS HBV DT}
```
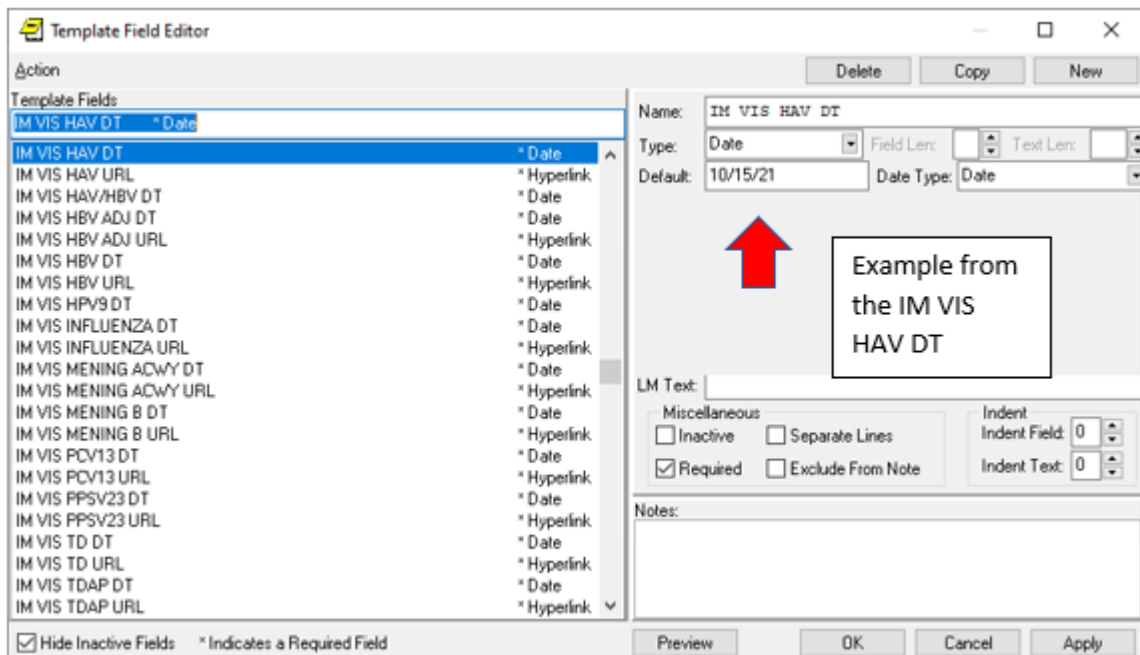

## 2. Reminder Dialog ELEMENT: VA-WH MAM HEADER2 - SCREEN

Change Made:  The word "to" was missing between "discover" and "their".

This element resides in the VA-WH MAMMOGRAM SCREENING reminder dialog.

**BEFORE**:
```
NAME: VA-WH MAM HEADER2 - SCREEN  Replace
DISABLE:
CLASS: NATIONAL//

Additional findings: none
Select ADDITIONAL FINDING:
DIALOG/PROGRESS NOTE TEXT:
{FLD:VA-WH MAMMOGRAM GUIDANCE}

The VHA recommends against clinicians teaching women how to perform
breast self-examination for breast cancer screening.  Women should be
encouraged to report breast changes or abnormalities they discover their
provider.
```

**AFTER**:
```
NAME: VA-WH MAM HEADER2 - SCREEN  Replace
DISABLE:
CLASS: NATIONAL//

Additional findings: none
Select ADDITIONAL FINDING:
DIALOG/PROGRESS NOTE TEXT:
{FLD:VA-WH MAMMOGRAM GUIDANCE}

The VHA recommends against clinicians teaching women how to perform
breast self-examination for breast cancer screening.  Women should be
encouraged to report breast changes or abnormalities they discover to
their provider.
```

Reminder Resolution: Mammogram Screening

The ACS and VHA recommends:
- Women with an average risk for breast cancer undergo regular screening
  mammography starting at age 45 years.
- Women aged 45 to 54 years old should be screened annually.
- Women 55 years and older should transition to biennial screening or
  have the opportunity to continue screening annually.
- Women should have the opportunity to begin annual screening between the
  ages of 40 and 44 years.
- Women should continue screening mammography as long as their overall
  health is good and they have a life expectancy of 10 years or longer.

VHA Breast Cancer Screening Guidelines

The VHA recommends against clinicians teaching women how to perform breast self-examination for breast cancer screening.  Women should be encouraged to report breast changes or
  abnormalities they discover to their provider.

## 15. Reminder ELEMENT: VA-HGB A1C FROM NON VA LAB

Change Made:  This is a new standardized reminder dialog element and health factor that can be used in local clinical reminder dialog templates to document a patient's hemoglobin A1C lab test result completed at a non-VA lab.  This new element and health factor will be recognized by the quality external peer review process (EPRP) when evaluating diabetic patient labs.

**BEFORE**:
**THIS IS A NEW ELEMENT, THERE IS NO 'BEFORE' INFORMATION TO PRESENT HERE**

**AFTER**:
```
Element: VA-HGB A1C FROM NON VA LAB
    Text: Patient's Hemoglobin A1c from a non-VA lab (please enter re
          only as the specific number with decimal point)
            Prompts: Result:
                     Date:
```

## 16.    Reminder ELEMENT: VA-HBV TEXT ADDL INFORMATION IMMUNIZATION

Change Made:  Text was missing at the end of the dialog text.  The missing text was added.

This element resides in the VA-HEPATITIS B IMMUNIZATION reminder dialog.

```

should follow CDC Traveler's Health recommendations:
{FLD: PBM HEPLISAV-B TRAVEL RECOMMEND}
```

Reminder Resolution: Hepatitis B Immunization

drug abuse treatment and prevention; health care settings that target services to injection-drug users or men who have sex with men; correctional facilities; and facilities for chronic hemodialysis patients

international travelers to countries with high or intermediate prevalence of HBV infection (list of countries is available) should follow CDC Traveler's Health recommendations: https://wwwnc.cdc.gov/travel/destinations/list

HBV IMMUNIZATION

☐ Order HBV vaccine

☐ Document administration of Hepatitis B vaccine today

☐ Record prior HBV immunization
       (Note: written documentation is required to record prior immunizations)

☐ Refusal/deferral of HBV vaccine

☐ Virtual/Telehealth Visit - Patient educated on the need for receiving Hepatitis B immunization either at VA or outside facility. (A reference for outside immunization locations can be found at this link Find VA locations by searching for Community pharmacies.)

No prior Hepatitis A (HAV) serology found.

## 17.    Reminder ELEMENT: VA-MISC UPDATE TEMPLATE FIELDS

Change Made:  Three template fields are included in this element.  Installation will ensure your facility has the correct set-up for all three template fields.

**BEFORE**:
Refer to the AFTER screenshots below to see how all three template fields should display after you install the misc.16 update

**AFTER**:
NAME: VA-MISC UPDATE TEMPLATE FIELDS
{FLD:LIFELINESUPPORT.ORG}

{FLD:ACP ELIGIBILITY STEPS}

{FLD:ACP QUALIFICATION GUIDELINES}

## 18.  Reminder GROUP: VA-LST RESUSCITATION-CPR/DNR 2 (G)

Change Made:  Branching logic was added to the full code and DNR options in section 5a of the VA-LIFE-SUSTANING TREATMENT (D) reminder dialog, to alert the author of existing DNR orders on patient's charts, that should be discontinued if new orders are being placed.

This group resides in the VA-LIFE-SUSTAINING TREATMENT (D) reminder dialog.

> **BEFORE**:
> ```
> Group: VA-LST RESUSCITATION-CPR/DNR 2 (G)
>         Text: *5a. In the event of cardiopulmonary arrest:
> ```

> **AFTER**:

```
Group: VA-LST RESUSCITATION-CPR/DNR 2 (G)
        Text: *5a. In the event of cardiopulmonary arrest:
```

**If patient has active DNR order:**

    a.   User selects the "Full Code" option in the LST reminder dialog the following alert will display.

```
REMINDER: DISCONTINUE LST ORDERS THAT NO LONGER REFLECT THE PATIENT'S LST DECISIONS TO ENSURE THAT THE LST
 NOTE AND ORDERS ALIGN.

*5a. In the event of cardiopulmonary arrest:

   ◉ Full code:  Attempt CPR.

   ***URGENT ALERT: The patient has an existing DNR order.
      -------------------------------------------------
      You MUST manually discontinue the DNR order from the Orders tab
      immediately after completing this template.
```

    b.   User selects the "DNAR/DNR" option in the LST reminder dialog the following alert will display.

```
REMINDER: DISCONTINUE LST ORDERS THAT NO LONGER REFLECT THE PATIENT'S LST DECISIONS TO ENSURE THAT THE LST
 NOTE AND ORDERS ALIGN.

*5a. In the event of cardiopulmonary arrest:

   ○ Full code:  Attempt CPR.
   ◉ DNAR/DNR:  Do not attempt CPR.

   ***URGENT ALERT: The patient has an existing DNR order.
      -------------------------------------------------
      To avoid duplicate orders, you MUST manually discontinue the DNR order
      from the Orders tab immediately after completing this template. OR, if
      the patient's LST plan has not changed (including code status and
      decisions about other LSTs), this template does not need to be
      completed.
```

    c.   User selects the "DNAR/DNR: Except…" option in the LST reminder dialog the following alert will display.

```
REMINDER: DISCONTINUE LST ORDERS THAT NO LONGER REFLECT THE PATIENT'S LST DECISIONS TO ENSURE THAT THE LST
 NOTE AND ORDERS ALIGN.

*5a. In the event of cardiopulmonary arrest:

   ○ Full code:  Attempt CPR.
   ○ DNAR/DNR:  Do not attempt CPR.
   ◉ DNAR/DNR:  Except provide CPR during the following procedure and time frame: *

      ***URGENT ALERT: The patient has an existing DNR order.
         -------------------------------------------------
         You MUST manually discontinue the DNR order from the Orders tab
         immediately after completing this template and placing the DNR Except
         order.
```

**If the patient has an existing DNAR/DNR Except order:**

    d.   User selects the "Full Code" option in the LST reminder dialog the following alert will display.
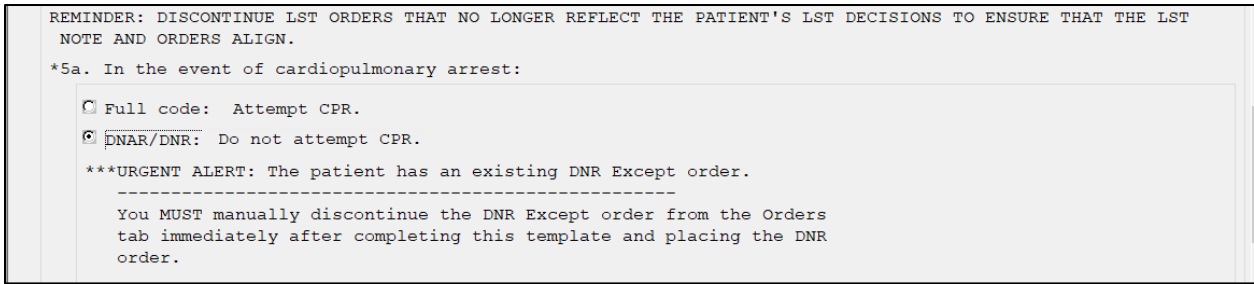

```
REMINDER: DISCONTINUE LST ORDERS THAT NO LONGER REFLECT THE PATIENT'S LST DECISIONS TO ENSURE THAT THE LST
 NOTE AND ORDERS ALIGN.

*5a. In the event of cardiopulmonary arrest:

   ◉ Full code:  Attempt CPR.
   ***URGENT ALERT: The patient has an existing DNR Except order.
      -------------------------------------------------
      You MUST manually discontinue the DNR Except order from the Orders tab
      immediately after completing this template.
```

    e.   User selects the "DNAR/DNR" option in the LST reminder dialog the following alert will display.

```
REMINDER: DISCONTINUE LST ORDERS THAT NO LONGER REFLECT THE PATIENT'S LST DECISIONS TO ENSURE THAT THE LST
 NOTE AND ORDERS ALIGN.
*5a. In the event of cardiopulmonary arrest:

  O Full code:  Attempt CPR.
  ◉ DNAR/DNR:  Do not attempt CPR.

  ***URGENT ALERT: The patient has an existing DNR Except order.
      ------------------------------------------------
      You MUST manually discontinue the DNR Except order from the Orders
      tab immediately after completing this template and placing the DNR
      order.
```

f.  User selects the "DNAR/DNR: Except…" option in the LST reminder dialog the following alert will display.

```
REMINDER: DISCONTINUE LST ORDERS THAT NO LONGER REFLECT THE PATIENT'S LST DECISIONS TO ENSURE THAT THE LST
 NOTE AND ORDERS ALIGN.
*5a. In the event of cardiopulmonary arrest:

  O Full code:  Attempt CPR.
  O DNAR/DNR:  Do not attempt CPR.
  ◉ DNAR/DNR:  Except provide CPR during the following procedure and time frame: *

     *** URGENT ALERT: The patient has an existing DNR Except order.
         ------------------------------------------------
         To avoid duplicate orders, you MUST manually discontinue the DNR
         Except order from the Orders tab immediately after completing this
         template. OR, if the patient's LST plan has not changed (including code
         status and decisions about other LSTs), this template does not need to
         be completed.
```

**If the patient has existing DNR and DNAR/DNR Except orders:**

a.  User selects the "Full Code" option in the LST reminder dialog the following alert will display.

```
REMINDER: DISCONTINUE LST ORDERS THAT NO LONGER REFLECT THE PATIENT'S LST DECISIONS TO ENSURE THAT THE LST
 NOTE AND ORDERS ALIGN.
*5a. In the event of cardiopulmonary arrest:

  ◉ Full code:  Attempt CPR.
  ***URGENT ALERT: The patient has an existing DNR orders.
      ------------------------------------------------
      You MUST manually discontinue both DNR orders from the Orders tab
      immediately after completing this template.
```
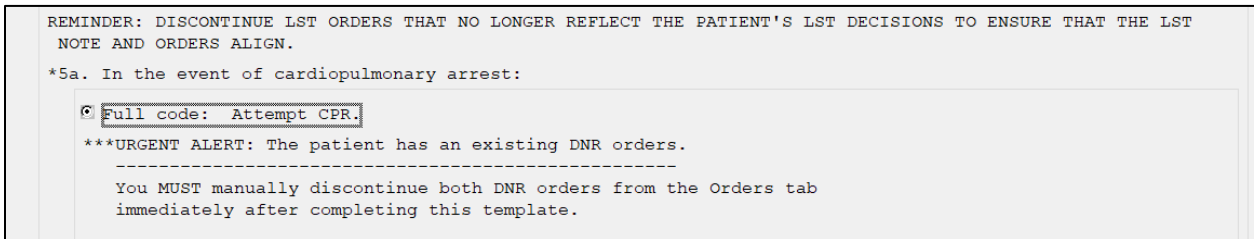

# 19.     Reminder GROUP: VA-NSG SA L/T PICC PREP

Change Made:  The elements were updated in the Insertion preparation section in the VAAES NSG IV Insertion and Maintenance note template.  New selection options were added, along with mapped Health Factors.

This group resides in the **VA-AES NSG IV INSERT AND MAINTAIN** reminder dialog.

```
        BEFORE:
        Group: VA-NSG SA L/T PICC PREP
              Text: Insertion preparation:
```

```
Element: VA-NSG L/T PICC PREP-INSTRUCTIONS
      Text: - Hand hygiene performed

## 20.    Reminder GROUP: VA-GP SAFETY PLAN REFUSES OFFER

Change Made:  The word "refused" was changed to "declined" in the dialog text.

This group resides in the VA-OSP SUICIDE SAFETY PLAN REVIEW/DECLINE reminder dialog.

<mark>BEFORE</mark>:
```
Group: VA-GP SAFETY PLAN REFUSES OFFER
     GROUP HEADER DIALOG TEXT:
      Veteran refused offer to complete a suicide prevention safety plan.
```

```
     Edit? NO//
     GROUP HEADER ALTERNATE P/N TEXT:
     \\Veteran refused offer to complete a suicide prevention safety plan.
```
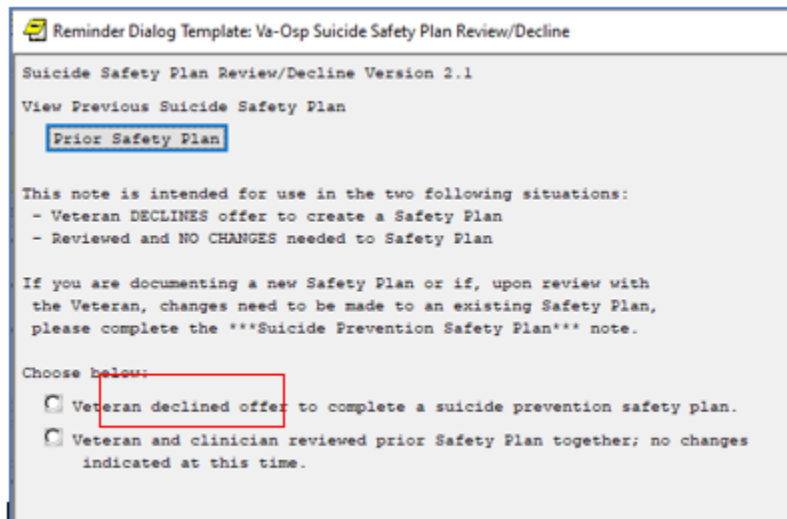

```
Group: VA-GP SAFETY PLAN REFUSES OFFER
      GROUP HEADER DIALOG TEXT:
       Veteran declined offer to complete a suicide prevention safety plan.

       Edit? NO//
      GROUP HEADER ALTERNATE P/N TEXT:
      \\Veteran declined offer to complete a suicide prevention safety plan
```

## 21.    Reminder ELEMENT: SAFETY PLAN STEP 2 TIP 3 DETAILS

Change Made:  The hyperlink to the Virtual Hope Box has changed..

This element resides in the VA-OSP SUICIDE SAFETY PLAN reminder dialog.

<mark>BEFORE</mark>:
```
Element: SAFETY PLAN STEP 2 TIP 3 DETAILS
```

```
        Text: View TIP for creating Virtual Hope Box as coping strategy
              {FLD:VA-OSP VHB URL}
```

<span style="background:yellow">https://www.health.mil/Reference-Center/Fact-Sheets/2020/10/26/Virtual-Hope-Box-App</span>

<span style="background:cyan">AFTER</span>:
```
Element: SAFETY PLAN STEP 2 TIP 3 DETAILS
        Text: View TIP for creating Virtual Hope Box as coping strategy
              {FLD:VA-OSP VHB URL}
```

REDACTED URL (Note from the person doing the 508 editing for outside of the VA, there is an APP called "Virtual Hope Box" that may have the same information. )

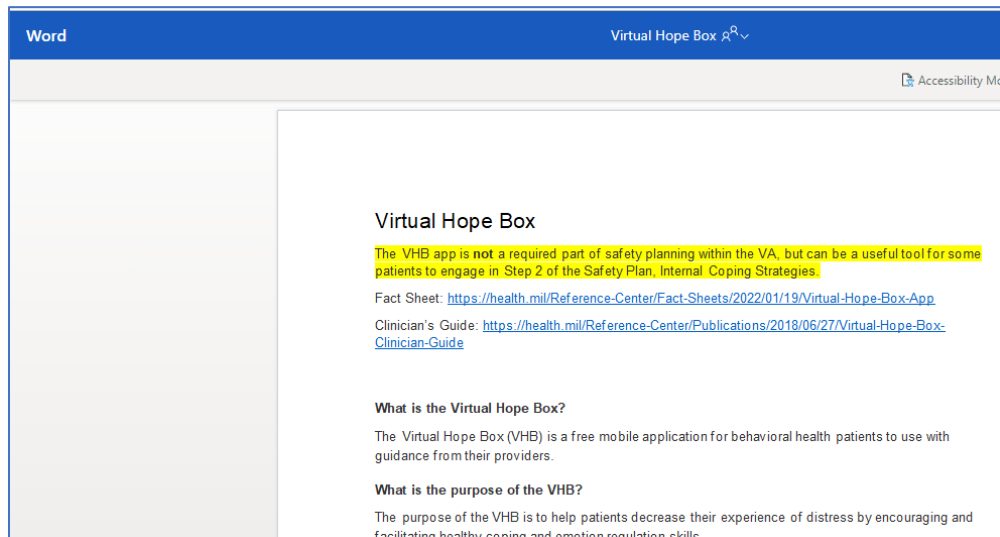

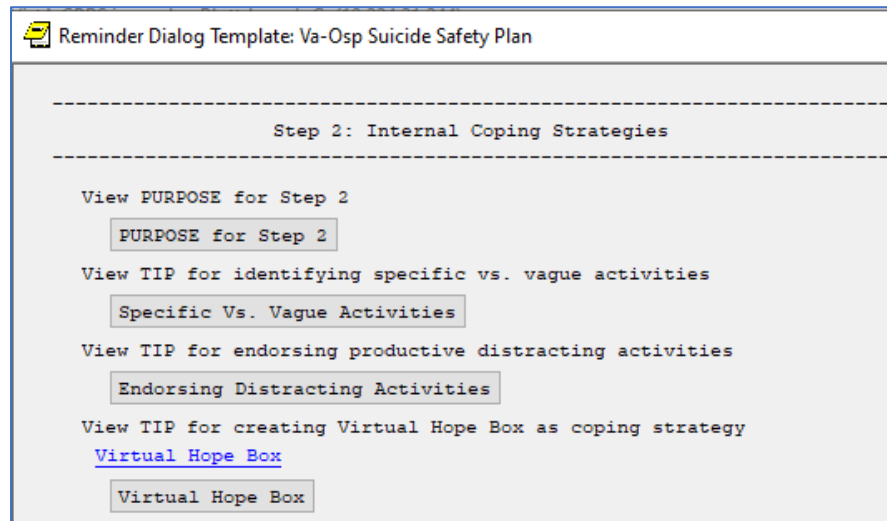

## 22.    Reminder DEFINITION: VA-AAA SCREENING

Change Made:  The hyperlink to the USPSTF Recommendations has changed..

<span style="background:yellow">BEFORE</span>:
```
Select Reminder Definition: VA-AAA SCREENING

Web Addresses for Reminder Information
```

Select URL: http://www.uspreventiveservicestaskforce.org/uspstf/uspsaneu.htm

**AFTER**:
Select Reminder Definition: VA-AAA SCREENING

Web Addresses for Reminder Information
Select URL:
https://www.uspreventiveservicestaskforce.org/uspstf/recommendation/abdominal-aortic-aneurysm-screening

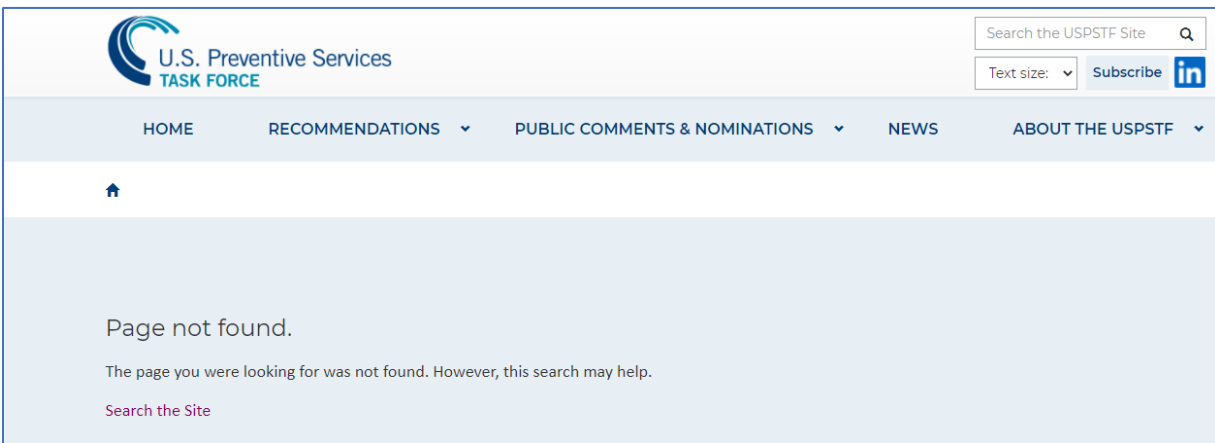

## 23.    Reminder ELEMENT: VA-HPV ADMIN VIS

Change Made:  The VIS hyperlink was not displaying on the Reminder Dialog.  Installing this element will ensure the VIS hyperlink displays (as intended) on the reminder dialog.

This element resides in the VA-HUMAN PAPILLOMAVIRUS (HPV) VACCINE  reminder dialog.

**BEFORE**:
```
Element: VA-HPV ADMIN VIS
     Text: The HPV Gardasil-9 VIS dated {FLD:IM VIS HPV9 DT} was given to
            the patient.
```

**AFTER**:
```
Element: VA-HPV ADMIN VIS
     Text: The HPV Gardasil-9 VIS dated {FLD:IM VIS HPV9 DT} was given to
            the patient.
              {FLD:IM VIS HPV URL}
```

## 24.      Reminder GROUP: VA-GP SUICIDE PRIOR ATTEMPTS

<u>Change Made</u>:  Additional text has been included in the question.

This group resides in the VA-OSP SUICIDE RISK ASSESSMENT reminder dialog.

:
```
GROUP: VA-GP SUICIDE PRIOR ATTEMPTS
     Text: Has the Veteran ever made a prior suicide attempt other than those
documented in the SBORs/past CRSEs noted above?*.
```

:
```
GROUP: VA-GP SUICIDE PRIOR ATTEMPTS
     Text: Has the Veteran ever made a prior suicide attempt, including any
reported today, other than those  documented in the SBORs/past CRSEs noted
above?*.
```

## 25.    Reminder ELEMENT: VA-SUICIDE RISK HX OF ATTEMPTS

Change Made:  The word "attempt(s)" was change to "behavior(s)".

This element resides in the VA-OSP SUICIDE RISK ASSESSMENT reminder dialog.

BEFORE:
NAME: VA-SUICIDE RISK HX OF ATTEMPTS

DIALOG/PROGRESS NOTE TEXT:
History of suicide attempt(s)

```
Risk Factors

## 28.    Reminder ELEMENT: VA-SUICIDE PRIOR ATTEMPTS NO UPDATE

Change Made:  One word in the alternate progress note text has changed from "Screening" to "Evaluation".

This element resides in the VA-OSP SUICIDE RISK ASSESSMENT reminder dialog.

**BEFORE**:
```
NAME: VA-SUICIDE PRIOR ATTEMPTS NO UPDATE   Replace
ALTERNATE PROGRESS NOTE TEXT:
The Veteran has not made any suicide attempts since the last VA
Comprehensive Suicide Risk Screening was completed.
```

**AFTER**:
```
NAME: VA-SUICIDE PRIOR ATTEMPTS NO UPDATE   Replace
ALTERNATE PROGRESS NOTE TEXT:
The Veteran has not made any suicide attempts since the last VA
Comprehensive Suicide Risk Evaluation was completed.
```

```
Suicidal Behavior
-----------------

   Previous suicide attempts documented in the Suicide Behavior and Overdose Report (SBOR) or by previous
    CSREs.
      No previous suicide attempts documented

   The CAPRI, REACH VET, Risk Indicators, STORM Tool for Analytic Lookup (CRISTAL) dashboard is another
    resource to check the patient record for details of prior suicide behaviors: CRISTAL dashboard

   Suicide Attempt: A non-fatal self-inflicted potentially injurious behavior with any intent to die as a
    result of the behavior.

   Has the Veteran made a suicide attempt since the last documented VA Comprehensive Suicide Risk
    Evaluation (CSRE) other than those documented in the SBOR/past CSREs noted above?*

     ◉ No
     ○ Yes
     ○ Unknown/Not reported
```

```
Suicidal Behavior
-----------------
  The Veteran has not made any suicide attempts since the last VA
  Comprehensive Suicide Risk Evaluation was completed.
```

## 29.    Reminder GROUP: VA-GP RAI FRAILTY SCORE

Changes Made:  Change #1 - The hyperlink to the RAI online tool has changed; from Red Cap to Power Apps.  Change #2 -  a text box has been added to the end of the group to allow for RAI calculations to be entered into the dialog and note.

This group resides in the VA-RAI FRAILTY SCORE reminder dialog.

```
BEFORE:
NAME: VA-GP RAI FRAILTY SCORE  Replace
DISABLE:
CLASS: NATIONAL//
Select SEQUENCE: 15// ?
   Answer with COMPONENTS SEQUENCE, or ITEM
  Choose from:
  5      VA-GP RAI FRAILTY RISK SCORE
  10     VA-GP RAI FRAILTY HX CA
```

```
Reminder Dialog Template: Va-Rai Frailty Score

Risk Analysis Index (RAI) Frailty Assessment Version 1.1

FRAILTY ASSESSMENT:
   The Risk Analysis Index (RAI):
    * Is a validated measure of patient frailty
    * Helps assess a patient's global physiological reserve
    * Increased levels of frailty are associated with adverse outcomes
    * Significant frailty is indicated by scores greater than or equal to 37

  Use the Online RAI  to calculate the RAI; then record the value in the field below.

     RAI score is:
     (Must be an integer value between 0 and 81)
        *  [                                              ]
        ☐ Comment:
     ☐ Select this checkbox if patient indicated history of cancer
```

## Revised RAI-National CPRS Template

⊞ | ⊟

Page 1 of 3

### Risk Analysis Index (RAI)--National CPRS Template

The RAI is an assessment of frailty--a global syndrome of physiological decline and loss of reserve marked by diminished cognition, strength, balance, and coordination. It can be used to predict the risk of postoperative morbidity and mortality.

*Please use your best clinical judgment to answer the following questions. Question prompts are suggested, but you may ask follow up questions as needed. If the patient cannot speak for themselves, the report of their companion may be used. Chart review is appropriate as necessary to identify cancer status and comorbidities like renal or heart failure.*

### Demographics

**Age**
* must provide value
