1.0 Document Purpose

Overview:

The Suicide Prevention Telehealth Interfacility Consult (IFC) and Intake Assessment template were developed by the Veterans Health Administration Office of Mental Health and Suicide Prevention (OMHSP) in collaboration with subject matter experts within the SP 2.0 Clinical Telehealth Workgroup. These notes were designed to create a referral system within the Veterans Integrated Service Network (VISN) Clinical Resource Hubs (CRH) for Veterans with a history of suicidal self-directed violence to receive suicide-prevention psychotherapy interventions via telehealth.

Referring providers (LIPs) located in Spoke telehealth facilities from general mental health, specialty mental health, residential mental health and inpatient mental health will complete the referring IFC. Suicide Prevention Telehealth psychiatrists, psychologists, social workers and licensed professional mental health counselors located in the Hub site of the Clinical Resource Hubs will receive and respond to the consults using the Intake Assessment Template. The purpose of the templates is to use health factors to capture data, accurately track wait times and collect information about the referral sources and triage responses.

2.0 Overview of the Process

Step 1: Create IFC service.

- Step 2: Associate the Stop Codes.
- Step 3: Add the consult to the Consult Hierarchy.
- Step 4: Test IFC implementation.
- Step 5: Create/update menus, quick orders, and order sets.
- **Step 6:** Associate TXML template to the referring consults.

3.0 Vista Access Requirements

The CAC/HIS will need the following access in VistA/CPRS to make the updates required in this Technical Guide:

- VistA secondary menu options:
 - [OR GPRS GUI CHART] for access to CPRS GUI
 - [GMRC MGR] Consult Management for consult and hierarchy set up
 - [SD ASSOCIATED STOP CODE] CONSULT ASSOCIATED STOP CODE - for reviewing and entering the Consult Associated Stop Code
 - [ORCM MENU] for editing and adding quick orders, menus, etc.
 - [ORLP TEAM MENU] Team List Mgmt. Menu for creating and editing consult teams
 - [GMRC REPORTS] Consult Tracking Reports
- Access to "Cor" Tabs in CPRS
- Restrict Patient Selection: set to NO
- User classes (for unlocking CAC options in the CPRS GUI allowing the ability to Edit/create shared TIU templates, link Consult Services to templates, and create new TIU field, respectively):
 - CLINICAL COORDINATOR
 - Locally Created User Classes (as needed)
- VistA Key* (one of the following CPRS keys will be needed for testing the consult ordering process on Test Patients):
 - o ORES
 - o ORELSE

*Note: only one of the keys above can be issued and used at one time. If the CAC/HIS needs to test the capabilities of each one, the previous key must be deleted before issuing another.

4.0 Create IFC Service

Every VISN CRH is supported by one facility – referred to as the Host site – that shares their instance of VistA with the VISN CRH. All other parent facilities within the VISN are Spoke sites. Spoke sites should complete the instructions in section A while CRH Host sites should complete section B.

Both Spoke sites and Host sites will be referring Veterans to their VISN CRH using their Suicide Prevention Telehealth consult. Spoke sites will send referring IFC services to the receiving IFC service at the CRH Host site. Within the Host site, the receiving IFC service will both be configured to receive IFC services from other facilities and be used as an intra-facility consult for providers referring Veterans from the Host site to the CRH.

A. Spoke site setup: *(skip to B. on page 7 for CRH Host site setup)* Create your referring IFC Service:

> **SUICIDE PREVENTION TELEHEALTH IFC** <u>*V*## <u>STA6A</u> where V## represents your two-digit VISN and STA6A is your facility station number.</u>

Examples: SUICIDE PREVENTION TELEHEALTH IFC REDACTED SUICIDE PREVENTION TELEHEALTH IFC REDACTED

Note: If your VISN and facility have not begun offering Suicide Prevention Telehealth services yet, please create the IFC service then set the Service Usage field to Disabled. The Clinical Resource Hubs will be separately instructed to notify the HIS/CAC teams at each facility in their VISN once they begin offering these services.

Note: The following example uses referring Spoke site REDACTED, IFC information, and VISN number where appropriate.

From the Consult Management menu, select the "Set up Consult Services" menu option by typing "SS" at the main prompt.

RPT	Consult Tracking Reports
SS	Set up Consult Services
SU	Service User Management
CS	Consult Service Tracking
RX	Pharmacy TPN Consults
GU	Group update of consult/procedure requests
UA	Determine users' update authority

Add/Edit Another Service? NO//

B. Host site setup: *(only if your facility is the Host site for your VISN CRH)* Create the receiving IFC Service:

> **SUICIDE PREVENTION TELEHEALTH IFC** <u>*V*##</u> <u>*STA6A*</u> where *V*## represents your two-digit VISN and STA6A is your facility station number.

Examples: SUICIDE PREVENTION TELEHEALTH IFC REDACTED SUICIDE PREVENTION TELEHEALTH IFC REDACTED

Note: If your VISN and facility have not begun offering Suicide Prevention Telehealth services yet, please create the IFC service then set the Service Usage field to Disabled. The Clinical Resource Hubs will be separately instructed to notify the HIS/CAC teams at each facility in their VISN once they begin offering these services.

Note: The following example uses receiving CRH Host site 675 Orlando and referring Spoke site 548 West Palm Beach. Substitute your STA6A, IFC information, and VISN number where appropriate.

From the Consult Management menu, select the "Set up Consult Services" menu option by typing "SS" at the main prompt.

```

5.0 Consult Associated Stop Codes

All newly created Suicide Prevention Telehealth consult services must be associated with Stop Codes 502 and 179, with 502 being entered first then 179 entered second.

Step 1: At any prompt in VistA, type **^CONSULT** and choose the option: **CONSULT ASSOCIATED STOP CODE [SD ASSOCIATED STOP CODE]**

Step 2: At the REQUEST SERVICES SERVICE NAME prompt, type **SUICIDE PREVENTION TELEHEALTH**

Step 3: At the ASSOCIATED STOP CODE prompt, type 502 and answer Yes then type 179 and answer Yes.

Note: The following example is for station 548 within VISN 8.

```
Select REQUEST SERVICES SERVICE NAME: SUICIDE PREVENTION TELEHEALTH

1 SUICIDE PREVENTION TELEHEALTH (ALL SERVICES) GROUPER ONLY

2 SUICIDE PREVENTION TELEHEALTH IFC 548

CHOOSE 1-2: 2 SUICIDE PREVENTION TELEHEALTH IFC 548

Select ASSOCIATED STOP CODE: 502 MENTAL HEALTH CLINIC - IND 502

Are you adding 'MENTAL HEALTH CLINIC - IND' as

a new ASSOCIATED STOP CODE (the 1ST for this REQUEST SERVICES)? No// Y

(Yes)

Select ASSOCIATED STOP CODE: 179 RT CLIN VID CARE HOME 179

Are you adding 'RT CLIN VID CARE HOME' as

a new ASSOCIATED STOP CODE (the 2ND for this REQUEST SERVICES)? No// Y
```

```
(Yes)
Select ASSOCIATED STOP CODE: <Enter>
```

6.0 Add Consult Service to Consult Hierarchy

Add your newly created Suicide Prevention Telehealth IFC service to the appropriate Grouper in your Consult Hierarchy according to your facility's setup (e.g., ALL SERVICES or MENTAL HEALTH).

Optional: Create a new consult Grouper service with the title SUICIDE PREVENTION TELEHEALTH (ALL SERVICES) and set the SERVICE USAGE field to GROUPER ONLY. Add your newly created Suicide Prevention Telehealth IFC service to the Select SUB-SERVICE/SPECIALTY field then add this new Grouper to the appropriate Grouper in your Consult Hierarchy.

From the Consult Management menu, select the "Set up Consult Services" menu option by typing "SS" at the main prompt.

RPT	Consult Tracking Reports
SS	Set up Consult Services
SU	Service User Management
CS	Consult Service Tracking
RX	Pharmacy TPN Consults
GU	Group update of consult/procedure requests
UA	Determine users' update authority
UN	Determine if user is notification recipient
NR	Determine notification recipients for a service
TD	Test Default Reason for Request
LH	List Consult Service Hierarchy
PR	Setup procedures
СР	Copy Prosthetics services
CCT	Menu for Closure Tools
DS	Duplicate Sub-Service
FS	Define Fee Services
IFC	IFC Management Menu
MG	Define FSC HCP Mail Group
TP	Print Test Page

Select Consult Management Option: **SS** Set up Consult Services

Select Service/Specialty: SUICIDE PREVENTION TELEHEALTH (ALL SERVICES) GROUPER ONLY **Name of your Consult Grouper**

SERVICE NAME: SUICIDE PREVENTION TELEHEALTH (ALL SERVICES) Replace ABBREVIATED PRINT NAME (Optional):

```
INTERNAL NAME:
Select SYNONYM:
SERVICE USAGE: GROUPER ONLY//
```

(Several blank Input fields are not being shown for this section to save space)

```
SPECIAL UPDATES INDIVIDUAL:
RESULT MGMT USER CLASS:
UNRESTRICTED ACCESS:
Select SUB-SERVICE/SPECIALTY: SUICIDE PREVENTION TELEHEALTH
    1 SUICIDE PREVENTION TELEHEALTH (ALL SERVICES)
                                                                GROUPER
ONLY
    2
        SUICIDE PREVENTION TELEHEALTH IFC V08 548
CHOOSE 1-2: 2 SUICIDE PREVENTION TELEHEALTH IFC V08 548
 Are you adding 'SUICIDE PREVENTION TELEHEALTH IFC V08 548' as
   a new SUB-SERVICE (the 1ST for this REQUEST SERVICES)? No// Y (Yes)
 MNEMONIC:
Select SUB-SERVICE/SPECIALTY:
ADMINISTRATIVE:
Add/Edit Another Service? NO//
```

If you created a new Consult Grouper, ensure it is also added into your Consult Hierarchy.

7.0 Test IFC implementation

Spoke and CRH host sites will need to notify each other once their new IFC services have been created in order to test IFC implementation prior to clinical use.

Once ready, go to the Consult Management menu, select the "IFC Management Menu" menu option by typing "IFC" at the main prompt.

```
RPT Consult Tracking Reports ...

Congratulations! You're configured correctly.

8.0 Quick Orders, Order Sets, and Menus

Both Spoke sites and Host sites will be referring Veterans to their VISN CRH using their Suicide Prevention Telehealth consult. Spoke sites will send

referring IFC services to the receiving IFC service at the CRH Host site. Within the Host site, the receiving IFC service will both be used to receive IFC services from other facilities and be used as an intra-facility consult for providers referring Veterans from the Host site to the CRH. Therefore, both Spoke and Host sites will need to configure quick orders, order sets, and menus for their providers.

The CAC/HIS will need access to the OR PARAM COORDINATOR MENU option in VistA in order to build or modify quick orders, order sets, and menus. Local naming conventions may be used for the order dialogs.

Note: The following example uses 548 West Palm Beach within VISN 8.

From the Order Menu Management option, select the "Enter/edit quick orders" menu option by typing "QO" at the main prompt.

OI	Manage orderable items
PM	Enter/edit prompts
GO	Enter/edit generic orders
QO	Enter/edit quick orders
QU	Edit personal quick orders by user
ST	Enter/edit order sets
AC	Enter/edit actions
MN	Enter/edit order menus
AO	Assign Primary Order Menu
CP	Convert protocols
SR	Search/replace components
LM	List Primary Order Menus
DS	Disable/Enable order dialogs
CS	Review Quick Orders for Inactive ICD9 Codes
MR	Medication Quick Order Report
CA	Quick Order Mixed-Case Report
CO	Create Clinic Order QOs from Inpatient QOs
CV	Convert IV Inpatient QO to Infusion QO
DF	Quick Order Free-Text Report
FR	IV Additive Frequency Utility
SP	SUPPLY COVERSION UTILITY MENU

Select Order Menu Management Option: **QO** Enter/edit quick orders

Select QUICK ORDER NAME: GMRCTZ SUICIDE PREVENTION TELEHEALTH IFC V08 548

```

               Category: OUTPATIENT
               Urgency: ROUTINE
  Clinically Indicated Date:
_____
```

(P)lace, (E)dit, or (C)ancel this quick order? PLACE// Auto-accept this order? NO//

- **Important:** Suicide Prevention Telehealth consults are limited to Mental Health referring providers. Place the quick order on your local menu where it will primarily be seen by Mental Health providers.
- Optional: Discuss with your mental health program staff regarding if they would like you to create an order set containing the Suicide Prevention Telehealth IFC and Digital Divide Outpt consult services. If yes, it is recommended for you to build an order menu for clinical decision support that asks if the Veteran has an internetconnected, video-capable device. Clicking Yes would only submit the Suicide Prevention Telehealth IFC while clicking No would execute the order set for both Suicide Prevention Telehealth IFC and Digital Divide Outpt consults.

9.0 Consult TXML Template Linkage

Both Spoke and Host sites will need to link the TXML template to their consult.

Step 1: Save the Suicide Prevention Telehealth TXML template file to your desktop.

Step 2: Within CPRS, go to the Notes tab, click Options, then click Edit Shared Templates.

Step 3: In Template Editor, expand the Consult Reasons for Request folder.
