At-Risk Eye Care Reminder <u>Dialog</u> Changes

- **Nursing**
  1. Version change
     a. Changed version from 3.0 to 4.0

  2. Add colon after the date of appointment

I am not sure if you would be the correct person to contact regarding this request. However, our site is asking if a colon could be added after the Date of Appointment section of the reminder to keep consistent with the rest of the reminder.

```
⊙ Future eye care appointment scheduled within the next 90 days
  Date of Appointment *
○ Patient Declined/Refused
```

```
Action:
Patient has a future eye care appointment scheduled within the next 90 days.
  Date of Appointment: 1/1/2013
```

3. Add info text to refusal selection

```
○ Patient Declined/Refused **Do NOT not use for patients receiving outside care; use appropriate option above**
```

- **Provider**
  1. Change version to 3.0

  ```
  Eye Care At-Risk Screen Provider Template v 3.0
  ```

  2. Add 'outside eye exam' option to the 'Provider' template (this is already on the Nurse template): reason: sometimes a nurse selects 'pt refused' rather than 'outside eye exam' and once the secondary reminder populates to PCP, there is no way for PCP to resolve

  ```
  ○ Tele-Eye Screening Requested (Recommended unless exclusions identified above)
  ○ Comprehensive Eye Exam Requested:

      ○ Exclusion to TeleEye Screening Identified: Refer to clerical associate to schedule non-overboo
      ○ Eyeglasses: Refer to clerical associate to schedule non-overbook Eye Clinic appointment
      ○ Active eye problems/symptoms: Known diabetic retinopathy, macular degeneration, glaucoma, blin
         Refer to clerical associate to schedule direct access Eye Clinic appointment.

  ○ Outside eye exam of retina was performed by Optometrist or Ophthalmologist within the past year:
  ○ Patient Declined/Refused
  ```
