Update _2_0_119

# Clinical Reminders

# MENTAL HEALTH REMINDER UPDATES 7.0

# Install Guide

**October 2020**

Product Development
Office of Information Technology
Department of Veterans Affairs

**Table of Contents**

# Introduction

Starting January 1, 2021, performance measures will be updated to include the following changes:

1. Depression screening will use PHQ-2 instead of PHQ-2+I9
2. PTSD screening will use PC PTSD instead of PC-PTSD-5+I9
3. Primary suicide screening will be a new stand-alone clinical reminder/dialog pair that will use Mental Health instrument C-SSRS.
1. Alcohol screening will continue to use the AUDC as the screening tool, but the instrument will now "flex" based on the patient sex, that is, different questions will be asked. Formerly sites had the choice to link the screening and follow-up combined dialog to the alcohol screening reminder. The screening reminder will have its own dialog and the follow up for positive alcohol will have its own dialog, there will no longer be a combined dialog.
2. Follow up for positive alcohol reminder has been simplified to remove distinctions for Alcohol Use Dependency (AUD) and Substance Use Disorder (SUD) clinic visits as part of the branching logic for the dialog. This reminder will be due for any patient who scores 5 or greater on the AUDC tool

Other changes included in this Update:

Reminder Taxonomy VA-DEMENTIA DIAGNOSIS was updated to include A81.00, A81.01, A81.09, A81.2, A81.89, F01.50, F01.51, F02.80, F02.81, F03.90, F03.91, F10.27 F19.97, G23.1, G30.0, G30.8, G31.01, G31.09, G31.83, G90.3
When installing the update and are prompted, choose OVERWRITE for VA-DEMENTIA DIAGNOSIS taxonomy.

Reminder Location List VA-MH NO SHOW APPT CLINICS LL had the following telephone stop codes added: 527,528,530,542,545,546,579 and 584

**Six reminder definitions and their associated dialog are being distributed with this update**
VA-ALCOHOL USE SCREEN (AUDIT-C)
VA-ALCOHOL AUDIT-C POSITIVE F/U EVAL
VA-DEPRESSION SCREENING
VA-PTSD SCREENING
VA-PRIMARY SUICIDE SCREEN
VA-FOLLOW-UP POS PTSD/DEP COMBINATION

UPDATE_2_0_119 contains 1 Reminder Exchange entry:
**UPDATE_2_0_119 MH UPDATES 7.0**

**The exchange file contains the following components:**

**REMINDER DIALOG LINK TYPE**
        VA-ALCOHOL POSITIVE WARM HANDOFF CHECK
        VA-CSSRS RN WARM HANDOFF CHECK
        VA-PTSD POSITIVE WARM HANDOFF CHECK

# Pre-Install

1. Sites may want to check for quick order(s) in the VA-FOLLOW-UP POS PTSD/DEP COMBINATION dialog and have those available when installing this dialog. Even though the name of the elements leads one to think this is only for PTSD, this should be a generic consult to MH for either a depression and/or a PTSD issue. Below are the elements you can check for Quick Orders.
   VA-PTSD SCREEN POS MH EMERGENT EVAL
   VA-PTSD SCREEN POS MH NON-EMERGENT EVAL

2. Sites may want to check for quick order(s) in the VA-AUD-C POS BRIEF ALCOHOL COUNSELING reminder dialog and have available when installing this dialog.  Below is the element you can check for Quick Orders.

    VA-ALC REFER TO SPECIALTY SUD PROG
3. Reminder update 37 (UPDATE_2_0_37), update 53 (UPDATE_2_0_53), update 63 (UPDATE_2_0_63) should be considered a prerequisite to Update 119.

# Install Details

This update is being distributed as a web host file.  The address for the host file is:
https://REDACTED /UPDATE_2_0_119.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

Installation:
=============
This update can be loaded with users on the system. Installation will take less than 20 minutes.

# Install Example

To Load the exchange file, use LWH.  The URL is https://REDACTED /UPDATE_2_0_119.PRD

```
+              + Next Screen   - Prev Screen   ?? More Actions              >>>
CHF  Create Host File              LMM  Load MailMan Message
CMM  Create MailMan Message        LR   List Reminder Definitions
DFE  Delete Exchange File Entry    LWH  Load Web Host File
IFE  Install Exchange File Entry   RI   Reminder Definition Inquiry
IH   Installation History          RP   Repack
Select Action: Next Screen// LWH   Load Web Host File
Input the URL for the .prd file: https://████████████████████UPDATE_2_0_119.PRD
Added Reminder Exchange entry UPDATE_2_0_119 MH UPDATES 7.0
```

If you use LWH and it works, you will see something similar to this message.  Make sure the file was loaded successfully.

```
https://████████████████████UPDATE_2_0_119.PRD successfully loaded.
```

Most components will be the same and will be skipped.  Here are general rules for prompts to which you will have to respond.
If a component exists, but is different, use **OVERWRITE** action

If a component is new, use **INSTALL** action
For Reminder Terms below, use **OVERWRITE** action

VA-DEPRESSION SCREEN NEGATIVE

# Post Installation

1. Reminder Term VA-USER CLASS NURSE has two mapped items, both are CF.VA-ASU USER CLASS.  Make sure you have your exact RN and LPN user class names in the CF parameter field. If you have more than 2 user classes that represent RN and LPN, you will have to add a new instance of the computed finding VA-ASU USER CLASS, this is done by using quotes: "CF.VA-ASU USER CLASS". This term is used in branching logic to display the warm handoff option in the primary suicide screen reminder dialog, if you have additional user classes that may complete the primary suicide screen and should have this option in the dialog, you can add them to this term.
2. Ensure the new VA-PRIMARY SUICIDE SCREEN reminder (print name is "Suicide Screen") is added to your coversheet for users.
3. Add your local Quick Orders back into the following elements from Pre-Install
   a. VA-PTSD SCREEN POS MH EMERGENT EVAL
   b. VA-PTSD SCREEN POS MH NON-EMERGENT EVAL
   c. VA-ALC REFER TO SPECIALTY SUD PROG

Install complete.
