Post-Install Set-up Instructions	17

Introduction

The mammogram screening reminder was originally released in 2005 by the Office of Women's Health. In May 2017, the VHA adopted the American Cancer Society (ACS) breast cancer screening guidelines that give women a choice to begin screening at age 40. The guidelines also recommend starting yearly mammograms by age 45 and then every other year from age 55. The patch releases these edits to the existing national mammogram screening reminder.

Revisions:

1. Previously two reminder definitions and reminder dialogs were deployed; one for patients aged 50-74 and another aged 40-49. The 2017 revision will replace the two definitions and dialogs with one reminder definition and one reminder dialog. The reminder dialog will use branching logic to display three separate dialogs to the user based on the age of the patient; one for patients 40-44, one for patients 45-74, and one for patients >74.
2. The reminder definition baseline frequencies have been revised to the following:
 - a. 0Y for patients 39 and younger
 - b. 99Y for patients 40-44
 - c. 1Y for patients 45-54
 - d. 2Y for patients 55 and older
3. New health factors are deployed and appropriate terms and logic changes have been added to the reminder definition.
 - a. VA-WH BR CA 40-44 BEGIN AGE 45
 - i. Indicates a patient aged 40-44yo has chosen to begin annual mammogram screening at age 45. This health factor has a condition that will allow it to be evaluated as true only until the patient reaches age 45.
 - b. VA-WH BR CA 40-44 WANTS SCREENING
 - i. Indicates a patient has chosen to begin annual mammogram screening between ages 40-44. This health factor has a condition that will allow it to be evaluated as true only until the patient reaches age 45.
4. The condition within the currently deployed health factor WH BR CA 40-49 WANTS SCREENING, so that it will only be evaluated as true for patients until the patient reaches age 45. At age 45 the reminder will become applicable annually.
5. The 4-month frequency option has been removed from the reminder dialogs. The frequency finding was not removed from the reminder definition logic, so the reminder will still become applicable at 4 months for the appropriate patients. Providers can then choose a different frequency.
6. Logic added to the reminder definition to make the reminder applicable to patients aged 40-44, so the provider and patient can decide to begin screening at age 45 or between 40-44yo.
7. Logic added to have reminder to continue to become applicable after age 74, so provider and patient can decide to continue mammogram screening if patient is in good health and has life expectancy greater than 10 years.
8. Logic added to have reminder applicable annually for patients 45-54 and every two years for patients > 54yo. Providers will have opportunity to change frequency to annually for patients 55-74.

9. The reminder definition VA-WH DISCUSS BREAST CA SCREEN WOMAN 40-49 will be inactivated. The print name will be changed to “ZZDiscuss Breast CA (Discontinued)” to indicate it should not be used.
10. The reminder dialog VA-WH DISCUSS BREAST CA WOMAN 40-49 will be disabled.

Two reminder Definitions are being distributed with this update:

VA-WH DISCUSS BREAST CA SCREEN WOMAN 40-49
VA-WH MAMMOGRAM SCREENING

UPDATE_2_0_16 contains 1 Reminder Exchange entry:

UPDATE_2_0_16 VA-WH MAMMOGRAM SCREENING

The exchange file contains the following components:

VA-WH MAMMOGRAM SCREENING

Pre-Installation

1. Create a copy of the reminder inquiry output for the current VA-WH MAMMOGRAM SCREENING and VA-WH DISCUSS BREAST CA SCREEN WOMAN 40-49 installed in VistA to use as a reference for mapping to the new reminder definition terms.
2. Create a copy of the detailed display of the VA-WH MAMMOGRAM SCREENING and VA-WH DISCUSS BREAST CA WOMAN 40-49 reminder dialogs to use as a reference for mapping findings to the new reminder dialog groups and elements.
3. In reminder Dialog manager, Dialog manager, Group Vies, Inquire on Group VA-WH GP ORDERS-MAMMOGRAM SCREEN and note the order used as a finding. You will need to map this order in the post install section.

Install Details

This update is being distributed as a web host file. The address for the host file is:
https://REDACTEDS/UPDATE_2_0_16.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

This patch can be installed with users on the system, but it should be done during non-peak hours. Estimated Installation Time: 5-10 minutes

Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

```
+      + Next Screen  - Prev Screen  ?? More Actions  >>>
CFE  Create Exchange File Entry      LHF  Load Host File
CHF  Create Host File                 LMM  Load MailMan Message
CMM  Create MailMan Message          LR   List Reminder Definitions
DFE  Delete Exchange File Entry      LWH  Load Web Host File
IFE  Install Exchange File Entry     RI   Reminder Definition Inquiry
IH   Installation History
Select Action: Next Screen// LWH  Load Web Host File
Input the URL for the .prd file: http://[REDACTED]/UPDATE_2_0_16.PRD
```

At the **Select Action:** prompt, enter **LWH** for Load Web Host File

At the **Input the url for the .prd file:** prompt, type the following web address:

https://REDACTED_UPDATE_2_0_16.PRD

```
http://[REDACTED]/UPDATE_2_0_16.PRD successfully loaded.
```

You should see a message at the top of your screen that the file successfully loaded.

Search and locate an entry titled UPDATE_2_0_16 VA-WH MAMMOGRAM SCREENING in reminder exchange

```

You will then be returned to this screen. At the **Select Action** prompt, type **Q**.

Install Completed

Post-Install Set-up Instructions

1. Map local health factors to new terms.

A. Term Name: **VA-WH BR CA 40-44 BEGIN AGE 45**

- a. Map any local findings that represent a patient has decided to begin annual mammogram screening at age 45.

B. Term name: **VA-WH BR CA 40-44 WANTS SCREEN TERM**

- a. Map any local finding(s) that represent a patient has decided to begin annual screening at age 40 and continue to age 44.

2. Confirm following dialog groups and elements have appropriate local orders embedded.

A. Group Name: **VA-WH GP ORDERS - MAMMOGRAM SCREEN**

- a. Map local mammogram screening order to the FINDING ITEM field. This group was not revised in this update, but sites should confirm the appropriate order is still embedded.

NAME: VA-WH GP ORDERS - MAMMOGRAM SCREEN
