# **VA-COVID-19 IMMUNIZATION REMINDER UPDATE A Install Guide**

**DECEMBER 2020**

Product Development  
Office of Information Technology  
Department of Veterans Affairs

## **Table of Contents**

<b>INTRODUCTION .....</b>	<b>1</b>
<b>INSTALL DETAILS .....</b>	<b>1</b>
<b>INSTALL EXAMPLE .....</b>	<b>2</b>
<b>POST INSTALLATION .....</b>	<b>3</b>

## Introduction

---

**DESCRIPTION:** This update revises the reminder term, VA-SARS-COV-2 VACCINE INDICATION 4 in the VA-SARS COV-2 IMMUNIZATION reminder definition. The updated term allows sites the ability to configure the reminder to be applicable to inpatients in specific hospital locations or assigned to specific treating specialties.

The update also includes the RS COVID 19 IMMUNIZATION patient list rule set, which allows sites to produce a list of patients who have received COVID-19 vaccinations.

The update also includes

UPDATE\_2\_0\_173A contains 1 Reminder Exchange entry:

**UPDATE\_2\_0\_173A VA-COVID-19 IMMUNIZATION REMINDER**

**The exchange file contains the following components:**

### **REMINDER TERM**

VA-SARS-COV-2 VACCINE INDICATION 4

VA-REMINDER UPDATE\_2\_0\_173A

VA-COVID-19 IMMUNIZATIONS DOSE 2

VA-COVID-19 IMMUNIZATIONS DOSE 1

### **REMINDER LIST RULE**

RS COVID 19 IMMUNIZATION

## Install Details

---

This update is being distributed as a web host file. The address for the host file is:

<https://Redacted /UPDATE 2 0 173A.PRD>

The file will be installed using Reminder Exchange, programmer access is not required.

This update can be loaded with users on the system. Installation will take less than 5 minutes.

# Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

```
CFE Create Exchange File Entry      LHF Load Host File
CHF Create Host File                LMM Load MailMan Message
CMM Create MailMan Message          LR List Reminder Definitions
DFE Delete Exchange File Entry      LWH Load Web Host File
IFE Install Exchange File Entry      RI Reminder Definition Inquiry
IH Installation History              RP Repack
Select Action: Next Screen// LWH Load Web Host File
Input the URL for the .prd file: https:// /UPDATE_2_0_173A.PRD
```

At the **Select Action:** prompt, enter **LWH** for Load Web Host File

At the **Input the url for the .prd file:** prompt, type the following web address:

[https://Redacted/UPDATE\\_2\\_0\\_173A.PRD](https://Redacted/UPDATE_2_0_173A.PRD)

Search and locate an entry titled **UPDATE\_2\_0\_173A VA-COVID-19 IMMUNIZATION REMINDER.**

```
230 UPDATE_2_0_173A VA-COVID-19      12/04/2020@12:39

Select Action: Next Screen// 230
Select Action: : (IFE/DFE/IH): IFE// IFE
```

At the **Select Action** prompt, enter **IFE** for Install Exchange File Entry

Enter the number that corresponds with your entry **UPDATE\_2\_0\_173A VA-COVID-19 IMMUNIZATION REMINDER.** (in this example it is entry 230 it will vary by site). The date of the exchange file should be 12/04/2020.

At the **Select Action** prompt, type **IA** for Install all Components and hit enter.

Select Action: Next Screen// **IA Install all Components**

When you are prompted to Install new items, **choose I to INSTALL.**

During installation,

- Install all NEW items
- **Overwrite** the reminder term, VA-SARS-COV-2 VACCINE INDICATION 4

```

Component                                     Category   Exists
Source: [REDACTED]
Date Packed: 12/04/2020@12:39:39
Package Version: 2.0P46

Description:
The following Clinical Reminder items were selected for packing:
REMINDER LIST RULE
  RS COVID 19 IMMUNIZATION

REMINDER TERM
  VA-SARS-COV-2 VACCINE INDICATION 4
  VA-REMINDER UPDATE_2_0_173A

Keywords:

Components:
+      Enter ?? for more actions                >>>
IA  Install all Components                      IS  Install Selected Component
Select Action: Next Screen// IA

```

You will then be returned to this screen. At the **Select Action** prompt, type **Q**.

Install complete.

## Post-Installation

---

- 1. Configure term VA-SARS-COV-2 VACCINE INDICATION 4, so the COVID-19 Immunization reminder is due for inpatients (as necessary).**

Coordinate with appropriate staff to determine how the reminder will be deployed locally. The instructions below offer options for deployment. Read this entire section carefully before making changes to the term. Only use the finding items needed.

The Computed Finding VA-IS INPATIENT is included in this term 7 times to allow sites to manage inpatients by ward or by treating specialty.

- A. To make the reminder due for all inpatients and limit to specific wards with the “Edit Cover Sheet Reminder List” option in CPRS, use FI(1) in the reminder term. Instructions are below to use this term.**

FI(1)

Has a condition that can be deleted and the reminder term will be true for all current inpatients. If the site is going to assign the immunization reminder to individual wards using the “Edit Cover Sheet Reminder List” option in CPRS, then this will allow them to cause the reminder to be due on all inpatients but assign the reminder only to those wards where vaccination is appropriate.

**C. Finding 7 is used to make the reminder due by adding specific ward locations to the term. If the reminder should be due for inpatients assigned to certain wards, and the site will not limit to specific wards with the “Edit Cover Sheet Reminder List”, then use FI(7) in the reminder term. Five possible locations are included in the deployed term.**

**Instructions for using this term are below. In this example, LOCATION1 is replaced with a ward named LTC A, so the reminder is only due for inpatients on ward LTC A.**

Finding 7 is for ward locations. Substitute the name of the ward for the word “LOCATION#”
