# Introduction

DESCRIPTION: This update revises the VA-SARS-COV-2 IMMUNIZATION dialog, VA-SARS-COV-2 IMMUNIZATION TEMPLATE dialog and the two terms described below.

The VA-SARS-COV-2 VACCINE INDICATION 4 reminder term has been streamlined. This term allows sites to configure the reminder to be applicable to inpatients in specific hospital locations or assigned to specific treating specialties. The term now only has one finding. Specifics are in the post-installation steps.

Two health factors representing contraindications to the Moderna and Pfizer vaccines have been added to the VA-SARS-COV-2 VACCINE CONTRAINDICATION reminder term.

Changes to the dialogs:

- 1. Updated template fields
  - a. URLs for EUA fact sheets added.
  - b. Details on vaccination added.
  - c. Pre-vaccination text revised.
  - d. Post-vaccination text revised.
- 2. Updates to dialog groups and elements
  - a. Separated post-vaccination text for dose 1 and dose 2.
  - b. Added CPT codes for dose 1 and dose 2.
  - c. Separated and enabled contraindication option for Pfizer and Moderna options.
  - d. Added optional dialog group for scribes.
  - e. Added optional dialog element for policy/protocol documentation.
  - f. Enabled the administration group and historical group for Pfizer vaccine.
  - g. ICD-10 Z23. option added. This option is hidden for inpatients.
  - h. Telehealth/Virtual visit option hidden for inpatients.

# 1. Configure term VA-SARS-COV-2 VACCINE INDICATION 4, so the COVID-19 Immunization reminder is due for inpatients (as necessary).

The term now contains one instance of the computed finding for VA-IS INPATIENT. Examples are in the reminder term and below describing how to set it up for A) all inpatients, B) for selected treating specialties, **or** C) for selected wards.

- A. To make the reminder due for all inpatients and limit to specific wards with the "Edit Cover Sheet Reminder List" option in CPRS:
  - 1. Delete the condition in the finding to include all inpatients in the cohort.
  - 2. Assign the reminder only to those wards that are appropriate.

Do not assign to acute medical or surgical wards or ICU.
