Update _2_0_180

Clinical Reminders

VA-AES TEMPLATE UPDATE

Install Guide

January 2021

Product Development
Office of Information Technology
Department of Veterans Affairs

Table of Contents

Introduction

This release contains updates to the following reminder dialogs:
- VA-AES NSG FREQUENT DOCUMENTATION
- VA-AES ACUTE INPATIENT NSG SHIFT ASSESSMENT
- VA-AES ACUTE INPATIENT NSG ADMISSION SCREEN

REMINDER: The VA-AES ACUTE INPATIENT NSG SHIFT ASSESSMENT AND VA-AES ACUTE INPATIENT NSG ADMISSION SCREEN templates are mandated for use and replace the VA-COVID-19 NSG ADMISSION AND SHIFT ASSESSMENT template.

The primary focus of this release is to enhance functionality within the VA-AES NSG FREQUENT DOCUMENTATION dialog to allow LPN/LVN/UAPs to document using the national standardized template.

Since the VA-AES NSG FREQUENT DOCUMENTATION shares groups and elements that are within the VA-AES ACUTE INPATIENT NSG SHIFT ASSESSMENT, updates to shared data elements will update both templates (See enhancements list below).

The VA-AES ACUTE INPATIENT NSG ADMISSION dialog has one update:
- General Information – Acute Rehab Areas: Moderate Assist added under Ability to Ambulate Prior to Admission section.

The major enhancements to the VA-AES NSG FREQUENT DOCUMENTATION and VA-AES ACUTE INPATIENT NSG SHIFT ASSESSMENT are as follows:

National Early Warning Score (NEWS):
- Added NEWS Scoring Reference Button
- Removed auto calculating score of Pulse Oximetry and added Confirm Option
- Capitalized header to match other section headers
- Change Pulse Oximetry to Oxygen Saturation
- Added option to confirm oxygen saturation when not previously documented
- Added option to confirm AVPU when not previously documented
- Updated branching logic to accurately display NEWS score 3 for systolic blood pressure of 90
- Updated "No recent documentation of supplemental oxygen use.." to read "no current documentation of supplemental oxygen use" for consistency

Activities of Daily Living:
- Added Check box in front of Personal Care
- Peri care removed from Personal Care and placed as own section under ADL

- Added Cardiovascular Embolism Prevention section
- Added Comment Section at the bottom
- Placed in alphabetical order
- Health Factors added to this section

Activities of Daily Living – Oral Care:
- Removed redundancy of Oral Care from the Non-ventilated patient and Ventilated patient sub header

Activity/Mobilization:
- Add measurement in parenthesis after Mobilization or Ambulation Distance and Minutes (Moved from end of line). These sections were added to Shift Assessment as well.
- Added Mobilization Tolerance to Shift Assessment
- Added Health Summary Info Button for Last Activity Goal achieved Frequent Doc only
- Added Mobility Status section
- Added PT/OT/Rehab involved in care selection
- Added Gait section

Environmental Safety Management:
- Added this section from the Shift Assessment template
- Added dashes to each text line under Implemented safety standards of care
- Alphabetize the options under Therapeutic Companion
- Added an Option for LPN/LVN at bedside under Patient Safety Attendant
- Added Discontinued option (with comment box) under Therapeutic Companion and Patient Safety Attendant

Genitourinary:
- This section was added
- Added Incontinent under elimination and removed "Voiding, no difficulty option"

Pain:
- Spelled out DVPRS in header
- Spelled out PAINAD in header

The enhancements to the VA-AES NSG FREQUENT DOCUMENTATION:

Landing Page:
- Changed instructional text to "Any section not labeled (RN Only) may be completed by RN, LPN, LVN, UAP"

- Added (RN Only) after headers to indicate sections that can only be completed by RN (Does not print in final progress note text)
- Sections placed in alphabetical order (with exception of NEWS being at top)

Affect/Behavior:
- This section header was added, and content mirrors shift assessment

Brief Confusion Assessment Method – bCAM
- Updated header to spell out bCAM acronym
- Added instructional text "Must complete Richmond Agitation Sedation Scale (RASS) first (does not print in final progress note text)

Clinical Institute Withdrawal Assessment for Alcohol-Revised (CIWA-AR)
- Updated header to spell out CIWA-AR acronym
- Added helper text as to where to find the total score
- Added "unable to perform" option with free text box

Clinical Opiate Withdrawal Scale – COWS:
- Updated header to spell out acronym
- Added Helper text as to where to find the total score

Gastrointestinal:
- This content was added

Detailed Repositioning:
- Rebuilt Time and Position section to add health factors
- Added measurement in parenthesis

Neuro Checks:
- Added Strength and Sensation section from Shift Assessment
- Strength > Unequal Grip… – changed Hand amputation to Amputation present (also updated in Shift Assessment Neurological section)
- Strength – added comment check box with text box (also updated in Shift Assessment Neurological section)
- Sensation – added comment check box with text box (also updated in Shift Assessment Neurological section)
- Added health factors on comment options under strength (also updated in Shift Assessment Neurological section)
- Added health factors on comment options under sensation (also updated in Shift Assessment Neurological section)

National Institutes of Health Stroke Scale (NIHSS):
- This content was added.

Oral Intake:
- Added Tube Feeding option
- Breakfast, Lunch and Dinner options rebuilt to accommodate health factors
- NPO removed from breakfast, lunch, and dinner and added as an option under "Reasons for Inadequate Intake"

Pain:
- Removed the word Reassessment from Header

Provider Notification:
- This section header and content was added.

Vascular Checks:
- This section header was added
- Capillary Refill, Peripheral Pulse, and Temperature were added from the Shift Assessment

The **VA-AES NSG FREQUENT DOCUMENTATION** dialog contains national health factors that were developed to promote uniformity of data, and facilitation of reports to meet directives, policies, and regulatory metrics that support the characteristics of a high reliability organization. These national health factors are standardized and must be loaded without modification. A complete list of health factors and the corresponding text within the can be found at the following link (the link is redacted):

VAAES Nursing Frequent Documentation National Health Factor Spreadsheet

The template and Health Factors may not be changed or revised at the local level except for local elements identified in post-install instructions. Requests to add elements to the note must go through the approval process outlined in the SOP (link redacted)..

Please Note:

For questions or feedback on the template please utilize the REDACTED. For training questions please refer to the REDACTED.

A VAAES Nursing Frequent Documentation contingency form is in process and will be forthcoming.

UPDATE_2_0_180 contains 1 Reminder Exchange entry:

Pre-Install

1. Complete an inquiry to the group VAL-GP NSG NEWS IN NURSING NOTE and make note of whether this group is enabled or disabled in the system. If it is enabled, you will need to enable upon post-install.

Install Details

This update is being distributed as a web host file. The address for the host file is:

https://redacted/UPDATE_2_0_180.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

Installation:
=============
This update can be loaded with users on the system. Installation will take less than 30 minutes.

Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

```
+            + Next Screen   - Prev Screen   ?? More Actions                    >>>
CFE  Create Exchange File Entry        LHF  Load Host File
CHF  Create Host File                  LMM  Load MailMan Message
CMM  Create MailMan Message            LR   List Reminder Definitions
DFE  Delete Exchange File Entry        LWH  Load Web Host File
IFE  Install Exchange File Entry       RI   Reminder Definition Inquiry
IH   Installation History              RP   Repack
Select Action: Next Screen// LWH   Load Web Host File
Input the URL for the .prd file: https://_____/UPDATE_2_0_180.PRD
```

At the **Select Action:** prompt, enter **LWH** for Load Web Host File

At the **Input the url for the .prd file:** prompt, type the following web address:

https://Redacted/UPDATE_2_0_180.PRD

You should see a message at the top of your screen that the file loaded successfully

```
https://_____/UPDATE_2_0_180.PRD successfully loaded.
```

Search and locate an entry titled **UPDATE_2_0_180 VA-AES TEMPLATE UPDATE** in reminder exchange.

```

Description:
The following Clinical Reminder items were selected for packing:
REMINDER DIALOG
  VA-GP NSG ADM REHAB ABILITY TO AMBULATE PRIOR
  VA-AES NSG FREQUENT DOCUMENTATION

REMINDER TERM
  VA-REMINDER UPDATE_2_0_180
Non-exchangeable TIU object(s):
--------------------------------------------------------------------------------
TIU Object: TEMPERATURE
Object Method: S X=$$TEMP^TIULO(+$G(DFN))
+          + Next Screen   - Prev Screen   ?? More Actions              >>>
IA   Install all Components           IS   Install Selected Component
Select Action: Next Screen// Q
```

You will then be returned to this screen. At the Select Action prompt, type Q.

Install complete.

Post Installation

1. **Activating National Early Warning Score (NEWS)** – If your site is utilizing the National Early Warning Score (NEWS) you must activate the dialog group **VAL-GP NSG NEWS IN NURSING NOTE**. Confirm with local nursing leadership if your site utilizes NEWS before activating.
   If you are activating this portion of the dialog, please also edit the GROUP HEADER DIALOG TEXT field to add "(RN ONLY)" at the end of the existing text "NATIONAL EARLY WARNING SCORE (NEWS)". After your edit, the GROUP HEADER DIALOG TEXT should display as "NATIONAL EARLY WARNING SCORE (NEWS) (RN ONLY)". You will NOT edit the alternate progress note text field. This will be updated nationally in a future update.

2. **Format NIH Stroke Score health summary object display text.** The "Previous NIHSS Score" button will combine the reminder term and health factor name on the same line and wrap the text to a second line, making the display text difficult to read. (See example below)

   Example:

   ```
   VAL-NSG FREQ NIHSS INFO BOX

   NIHSS SCORE

   Information: Reminder Term: VA-NSG NIHSS LOC    Health Factor: VA-ACUTE STROKE
   NIHSS LOC 0    12/04/2020@09:21

    Reminder Term: VA-NSG NIHSS LOC QUEST    Health Factor: VA-ACUTE STROKE NIHSS
   LOC QUEST 0    12/04/2020@09:21

    Reminder Term: VA-NSG NIHSS COMMAND    Health Factor: VA-ACUTE STROKE NIHSS LOC
   CMD 1    12/04/2020@09:21
   ```
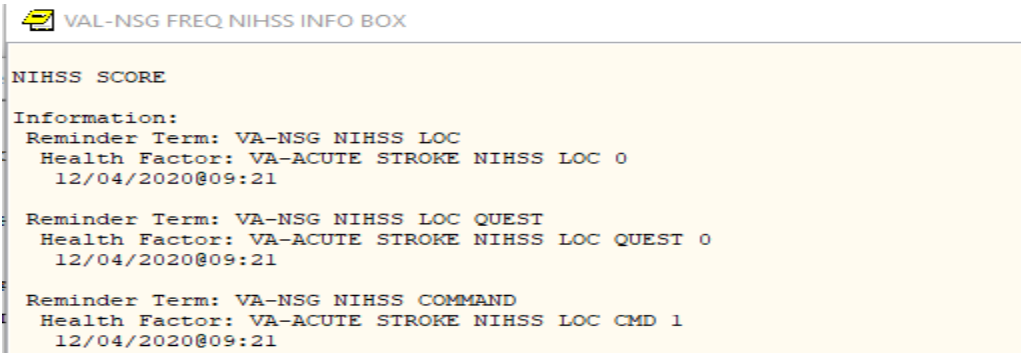

To format the display text for easier reading, edit the Alternate Progress Note Text field of the element **VAL-NSG FREQ NIHSS INFO BOX**. Replace the current text |VA-NSG NIHSS| with the following text: 'FMT{|VA-NSG NIHSS|}FMT .

NOTE: You will receive the following error after updating the element. Disregard the error message. The HSO will display correctly. Error message will be fixed in an upcoming patch.

> **Error message:** The dialog element VAL-NSG FREQ NIHSS INFO BOX contains a reference to a TIU Template field 'FMT{|VA-NSG NIHSS| in the Alternate Progress Note Text field. This TIU Template field does not exist on the system.

Example of Display text with Alternate Progress Note Text field updated to 'FMT{|VA-NSG NIHSS|}FMT:
