Introduction

DESCRIPTION:

The following COVID-19 reminder dialogs were updated to add immunization status:
- VA-COVID-19 SCREEN
- VA-COVID-19 CLC SCREEN
- VA-COVID-19 SCI SCREEN
- VA-COVID-19 TELEPHONE FOLLOW-UP
- VA-COVID-19 PROVIDER FOLLOW-UP

The screening template that is embedded in several other templates was updated to ask the symptom questions even if the patient has had a diagnosis of COVID-19.

The outside lab template that is embedded in several other templates was updated to distinguish between PCR/Non PCR and provide additional guidance about which options set the banner.

UPDATE_2_0_184 contains 1 Reminder Exchange entry:
    UPDATE_2_0_184 VA-COVID-19 TEMPLATE UPDATES

The exchange file contains the following components:

Save this info for the post install, it will make adding information back post -install easier if your site has made local edits. Not all sites will have made local edits to these dialog groups.

If you have made significant local edits to these dialog groups, you can also create a local dialog group that contains each of these items as sequences in that group and then create a reminder exchange file to back this group up. After installing, you can install that exchange file after installation of this update. Find the following PPT file COVID-19_LOCAL_BACKUP-184 in the VistA Documentation Library at https://www.va.gov/vdl.:

If you create a local dialog group for backup of these components, do not include the group VAL-GP COVID ASSESSMENT LAB TESTS, for this group, you will need to inquire and save this specific group pre-install and re-do any local changes post install. *

Installation:
=============
This update can be loaded with users on the system. Installation will take less than 30 minutes. You will need to allow additional time for the pre and post install steps.

This update is being distributed as a web host file. The address for the host file is:

https://REDACTED /UPDATE_2_0_184.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

If you install in your test account, because your test account does not have the COVID immunizations in the immunization file, you may get prompted to replace the immunization finding or you may get an error.

Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

```
+            + Next Screen   - Prev Screen   ?? More Actions              >>>
CFE  Create Exchange File Entry        LHF  Load Host File
