INSTALL EXAMPLE 8
POST INSTALLATION 21

Introduction

There are 10 different reminder dialogs that will be used by Prosthetic Representatives to document on any patient that has been seen by a Prosthetic representative and requires additional care coordination activities to receive associated benefits or DME. Each template will be connected to a note title.

1. PSAS Committee Care Coordination Template

- a. **Introduction:** Prosthetic Representatives are an integral member of numerous committees within the facility that make determinations of a Veteran's eligibility for benefits, devices, and services. A Prosthetic Representative has a responsibility to inform Veterans of eligibility decisions and provide them with documentation outlining the decisions made and their right to appeal. Directive 1173.14 outlines the need for facilities to establish Major Medical Equipment or HISA committees and outlines the responsibilities of that body. This template will support this directive by ensuring these committee decisions are documented in the EHR and all follow up procedures and actions are documented. To date, there has been no mechanism to standardize the way eligibility decisions made at a committee are recorded and communicated to all stakeholders. The goal of this template is to provide an electronic means to standardize required documentation and to increase transparency across clinical service lines on eligibility decisions and subsequent notification procedures.

2. PSAS Community Care Coordination Template

- a. **Introduction:** With the enactment of the Mission Act which expanded Veterans' access to healthcare within the community, there has been increased need for coordination between community providers, Veterans and Prosthetic Representatives to ensure durable medical equipment (DME) requests are processed timely and accurately. Prosthetic Representatives often have to educate community providers, VA clinicians and Veterans alike on what PSAS is authorized to provide and the appropriate steps to fulfill a community request for DME. Given the number of stakeholders involved, having a mechanism to record these inquiries is vital. Currently, there is no standard mechanism to trend inquiries and issues that arise related to community care DME requests. The goal of this template is to provide an electronic means to standardize documentation, enhance communication among clinical service lines and trend recurring issues as it relates to community care requests for DME.

3. PSAS General Case Management Template

a. Introduction: Prosthetic and Sensory Aids Service provides a wide range of comprehensive services and items including but not limited to sensory aids, mobility aids, communication and assistive devices, orthotic and prosthetic devices, home respiratory therapy, recreational/rehabilitative equipment, surgical implants, durable medical equipment, and prosthetic item repairs. Prosthetic Representatives often have to coordinate with Veterans and their caregivers to ensure devices and services provided by PSAS meet the Veterans need. This coordination may include troubleshooting repairs, coordinating installations, and facilitating set up and delivery. The goal of this template is to provide an electronic means to standardize documentation and enhance transparency and communication among clinical service lines.

4. PSAS Quality Management Template

a. Introduction: Prosthetic and Sensory Aids Service provides a wide range of comprehensive services and items including but not limited to sensory aids, mobility aids, communication and assistive devices, orthotic and prosthetic devices, home respiratory therapy, recreational/rehabilitative equipment, surgical implants, durable medical equipment, and prosthetic item repairs. Given the scope of the devices and services provided, Prosthetic Representatives often have to handle inquires related to quality concerns. To date, there has been no standard mechanism to record quality concerns in the electronic health record and communicate those concerns to clinical stakeholders. The goal of this template is to provide an electronic means to standardize documentation and to increase transparency and communication across clinical service lines on quality concerns related to DME devices and services and subsequent follow up actions taken.

5. PSAS Home Oxygen Template

a. Introduction: Prosthetic and Sensory Aids Service is responsible for the provision of home oxygen services to eligible Veterans. Home oxygen services are generally provided by a contractor and monitored for ongoing compliance in accordance with standards of The Joint Commission and other associated governing bodies. Prosthetic Representatives serving as contracting officer representatives ensure the home oxygen contractor meets all the requirements as outlined in the contract and overall patient experience metrics are met. Directive 1173.13 outlines the requirements for the management of the Home Oxygen program which includes home assessments, contractor performance monitoring and safety concerns are reported and assessed. The goal of this template is to provide an electronic means to standardize documentation, increase transparency and

communication and appropriately track safety measures and contractor complaints.

6. PSAS Home Visit Template

a. Introduction: Prosthetic and Sensory Aids Service provides a wide range of comprehensive services and items to eligible Veterans. There are times when installation of certain devices or modifications to a Veterans primary residence require a Prosthetic Representative to conduct an onsite review. Directive 1173.14 outlines the requirement for Prosthetic Representatives to perform random annual inspections of Home Improvement Structural Alteration projects. The goal of this template is to provide an electronic means to standardize documentation and to increase transparency and communication across clinical service lines on concerns noted during a home visit regarding the installation of DME devices or the modification of Veteran's residence through the Home Improvement Structural Alteration benefit.

7. PSAS Service Dog Veterinary Health Benefit Template

a. Introduction: Veterinary health coverage for guide and service dogs was recommended and written into regulation 38 CFR 17.148. The Department of Veteran Affairs has a contract to provide veterinary care for Guide and Service dogs as required in the regulation. The insurance contractor covers all wellness and sick care for guide and service dogs that are approved by VA as medically necessary for Veterans enrolled with VA. Prosthetic Representatives provide education on this benefit and help to facilitate the application process for Veterans. The goal of this template is to provide an electronic means to standardize documentation regarding eligibility for this benefit and improve communication across facilities.

8. PSAS Home Improvement Structural Alteration (HISA) Template

a. Introduction: The Home Improvement Structural Alteration (HISA) program provides eligible beneficiaries with limited lifetime funds to use towards home improvements and structural alterations that originate from a medical prescription. The HISA benefit is for medically necessary improvements or structural alterations to the beneficiary's primary residence that are necessary for the continuation of the provision of home health treatment of the beneficiary's disability or provide the beneficiary with access to the home or to an essential lavatory and sanitary facility. Prosthetic Representatives are responsible for the facilitation and administration of this benefit. Directive 1173.14 outlines the requirements for the management of the HISA program. The goal of this template is to provide an electronic means to standardize documentation, increase

transparency and communication across clinical service lines, and ensure consistent administration of HISA benefits within VHA.

9. PSAS Automobile Adaptive Equipment (AAE) Template

- a. **Introduction:** The Automobile Adaptive Equipment (AAE) program provides the necessary vehicle modifications and equipment to enable a disabled Veteran to operate a motor vehicle safely and permit access to and from the vehicle in a safe manner. Prosthetic Representatives are responsible for the facilitation and administration of this benefit. Handbook 1173.4 outlines the requirements for the management of the AAE program. The goal of this template is to provide an electronic means to standardize documentation, increase transparency and communication across clinical service lines, and ensure consistent administration of AAE benefits within VHA.

10. PSAS Clothing Allowance Template

- a. **Introduction:** Prosthetic and Sensory Aids Service manages the Clothing Allowance Benefit Program. Veterans with service-connected disabilities and disabilities compensable under Title 38 United States Code (U.S.C.) section 1151 who are prescribed a prosthetic or orthopedic appliance that tends to wear out or tear the clothing of a Veteran and/or a skin medication that causes irreparable damage to the Veteran's outer garments are entitled to receive a clothing allowance to replace or repair their clothing. Directive 1173.15 outlines the requirements for the management of the Clothing Allowance benefit program. Prosthetic Representatives are responsible for the facilitation and administration of this benefit. The goal of this template is to provide an electronic means to standardize documentation, increase transparency and communication across clinical service lines, and ensure consistent administration of Clothing Allowance benefits within VHA.

UPDATE_2_0_236 contains 1 Reminder Exchange entry:

Install Details

This update is being distributed as a web host file. The address for the host file is:

https://Redacted /UPDATE_2_0_236.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

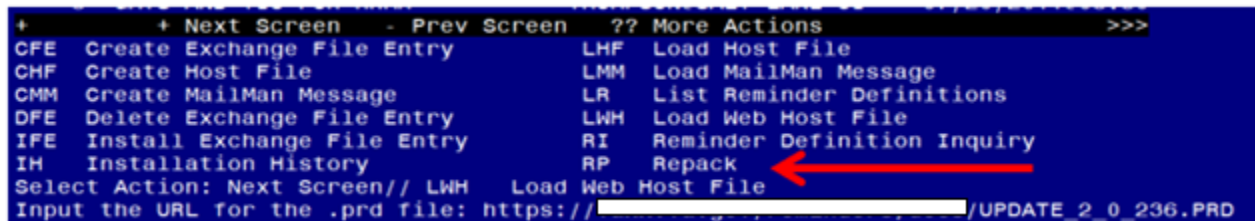

Installation:

=====

This update can be loaded with users on the system. Installation will take less than 10 minutes.

Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

```
+      + Next Screen  - Prev Screen  ?? More Actions  >>>
CFE  Create Exchange File Entry      LHF  Load Host File
CHF  Create Host File                 LMM  Load MailMan Message
CMM  Create MailMan Message           LR   List Reminder Definitions
DFE  Delete Exchange File Entry       LWH  Load Web Host File
IFE  Install Exchange File Entry      RI   Reminder Definition Inquiry
IH   Installation History              RP   Repack
Select Action: Next Screen// LWH  Load Web Host File
Input the URL for the .prd file: https://[redacted]/UPDATE_2_0_236.PRD
```

At the **Select Action:** prompt, enter **LWH** for Load Web Host File

At the **Input the url for the .prd file:** prompt, type the following web address:

https://Redacted/UPDATE_2_0_236.PRD

You should see a message at the top of your screen that the file successfully loaded.

https://[redacted]/UPDATE_2_0_236.PRD successfully loaded.

Search and locate an entry titled **UPDATE_2_0_236 VA-PROSTHETIC TEMPLATES** in reminder exchange.

Post Installation

1. Setup of Note Titles.

The note titles to create to associate with this template are:

PSAS COMMITTEE CARE COORDINATION
PSAS COMMUNITY CARE COORDINATION
PSAS GENERAL CASE MANAGEMENT
PSAS QUALITY MANAGEMENT NOTE
PSAS HOME OXYGEN NOTE
PSAS HOME VISIT
PSAS SERVICE DOG VETERINARY HEALTH BENEFIT REQUEST
PSAS HOME IMPROVEMENT STRUCTURAL ALTERATIONS
PSAS AUTOMOBILE ADAPTIVE EQUIPMENT REQUEST
PSAS CLOTHING ALLOWANCE REQUEST

VHA Enterprise Standard Title: *ADMINISTRATIVE NOTE*

You can add these to your document class where progress notes used by Prosthetics staff are located. They should not be in your consult document class.

Note: Comprehensive information on Creating new Document Classes and Titles can be found beginning on page 54 of the TIU/ASU Implementation Guide at the following link: [http://www.va.gov/vdl/documents/Clinical/CPRS-Text Integration Utility \(TIU\)/tiuim.pdf](http://www.va.gov/vdl/documents/Clinical/CPRS-Text%20Integration%20Utility%20(TIU)/tiuim.pdf)

2. **Make the Dialog template available to be attached to a Personal or Shared template or to be able to attach the dialog to a progress note title. (You can use the LINK feature in this menu for steps 2 and 3 if you choose to)**

Reminder Dialog: **VA-PSAS SERVICE DOG VETERINARY HEALTH BENEFIT REQUEST**

Next, type in the Associated Title name – **PSAS SERVICE DOG VETERINARY HEALTH BENEFIT REQUEST**– then click Apply.

4. Add Local Patient Data Objects

- a. The reminder dialog element VAL-PSAS TEMPLATES SC INFO VIEW contains the patient data object SERVICE CONNECTION/DISABILITIES. If you do not have this patient data object in your Vista system, using the Vista Menu, Reminder Dialog manager, Reminder Dialogs, Change view to Element, search for and find the reminder dialog element VAL-PSAS TEMPLATES SC INFO VIEW and edit the alternate dialog text, replace the dialog text SERVICE CONNECTION/DISABILITIES with text that represents your local patient data object that will display the patients service connection/disability rating.
- b. The reminder dialog element VAL-PSAS HISA INITIAL REQUEST DIAGNOSIS VIEW should contain a patient data object for active problem list. Using the Vista Menu, Reminder Dialog manager, Reminder Dialogs, Change view to Element, search for and find the reminder dialog element

VAL-PSAS HISA INITIAL REQUEST DIAGNOSIS VIEW and edit the alternate dialog text, replace the dialog text “object would go here” with text that represents your local patient data object that will display the patients active problem list. If you add the formatting characters, it will improve the display of the object. Example: 'FMT{|YOUR OBJECT NAME|}FMT.

5. Add to or disable local content at the end of the Home Oxygen Note. In the VA-PSAS Home Oxygen Note, there is a local reminder dialog group at the end VAL-PSAS HOME OXYGEN NOTE PLACEHOLDER which sites can use to add local processes in this section. You can add local groups or elements to this reminder dialog group as sequences.

If your site does not want to use this option to add local items, you can edit the reminder dialog group and set it to DISABLE AND DO NOT SEND MESSAGE.

6. Create two template fields in CPRS:

- a. In CPRS, open the Template Editor, select Tools then Edit Template Fields and click New.

The screenshot shows the 'Template Field Editor' window. On the left, a list of template fields is shown, with 'VA-PSAS HISA SC BENEFIT INFO (DISPLAY)' selected. The main area displays the field's name, type (Text), and items: '++ Service Connected refers to benefits used for a service-connected disability, a disability treated "as if" it were service connected, or for Veterans with a service-connected disability rated 50 percent or more. ++'. The Miscellaneous section has 'Exclude From Note' checked. The Indent section has 'Indent Field' set to 2. The Notes section is empty. Buttons for 'Delete', 'Copy', 'New', 'Preview', 'OK', 'Cancel', and 'Apply' are visible.

Type in the following information:

Name: VA-PSAS HISA SC BENEFIT INFO (DISPLAY)

Type: Text

Items: ++ Service Connected refers to benefits used for a service-connected disability, a disability treated "as if" it were service connected, or for Veterans with a service-connected disability rated 50 percent or more. ++

Miscellaneous: Select “Exclude from Note”

Indent: Indent Field: 2

Then click Apply. Verify display text appears in VA-PSAS HOME IMPROVEMENT AND STRUCTURAL ALTERNATIONS NOTE under Service-

Connected disability question when Initial Request/HISA Application completed by Veteran is selected.

View Service Connected Disabilities

Service-Connected disability: * Yes No

++ Service Connected refers to benefits used for a service-connected disability, a disability treated "as if" it were service connected, or for Veterans with a service-connected disability rated 50 percent or more. ++

b. In CPRS, open the Template Editor, select Tools then Edit Template Fields and click New.

Type in the following information:

Name: VA-PSAS CLOTHING ALLOWANCE LETTER INFO

Type: Text

Items: ++ A written letter notifying the Veteran of the application decision whether favorable or unfavorable along with VA Form 10-0998 must be provided. ++

Miscellaneous: Select "Exclude from Note"

Indent: Indent Field: 2

Then click Apply. Verify display text appears in VA-PSAS CLOTHING ALLOWANCE REQUEST under Date decision letter sent to Veteran when Clothing Allowance Appliance/Skin Medication Request is selected.

Date decision letter sent to Veteran: *

++ A written letter notifying the Veteran of the application decision whether favorable or unfavorable along with VA Form 10-0998 must be provided. ++

NOTE: If there are any questions or problems during the installation, please notify your local IT support to log a national help desk ticket or contact the VA Service Desk and have them submit a national ticket to:
