Introduction

Due to a court ruling, the Caregiver Support Program must revert the definition of Supervision, Protection and Instruction to the statute. Centralized Eligibility and Appeals Teams (CEATs) must use the language found in this update in making Veteran eligibility determinations for the Program of Comprehensive Assistance for Family Caregivers (PCAFC).

This update will change the wording in one reminder dialog group, VA-GP CSP CEAT INITIAL APP SUPERVISION.

BEFORE TEXT:
2) Veteran has a need for supervision, protection, or instruction.

*Need for supervision, protection, or instruction means an individual has a functional impairment that directly impacts the individual's ability to maintain his or her personal safety on a daily basis.

AFTER TEXT:
2) Veteran has a need for supervision, protection, or instruction.

*Need for supervision, protection, or instruction means an individual is in need of personal care services because of:
-A need for supervision or protection based on symptoms or residuals of neurological or other impairment or injury; or
-A need for regular or extensive instruction or supervision without which the ability of the veteran to function in daily life would be seriously impaired
