Update _2_0_307

Clinical Reminders

TOXIC EXPOSURE SCREEN REMINDER

Install Guide

September 2022

Product Development
Office of Information Technology
Department of Veterans Affairs

Table of Contents

Introduction

This update contains the following:

1. There is a new reminder definition and dialog VA-TOXIC EXPOSURE (print name Toxic Exposure Screen)
    Description:

    As required by the Honoring our PACT Act (Public Law 117-168), VA is required to incorporate a screening to help determine potential toxic exposures during active service for all enrolled Veterans.

    This screening will occur at least once every 5 years, and if an exposure is reported, the patient will be offered additional resources.

    Possible exposures include:
    Burn Pits/Airborne Hazards
    Gulf War related exposures
    Agent Orange
    Radiation
    Camp Lejeune contaminated water exposure
    Other environmental exposures

    If the patient declines or answers that they don't know, the reminder will be due in 1 year.

2. There is a new reminder and definition VA-TOXIC EXPOSURE SCREENING FOLLOW-UP (print name Toxic Exposure Screening Follow-Up)
    Description:

    As Required by the Honoring our PACT Act (Public Law 117-168) VA is following up on any potential toxic exposures during active service to determine if the veteran has related health concerns.

    This reminder will be due on
        1. Veterans that indicate they have a possible toxic exposure during their initial screening.
        2. Veterans that indicate they DONT KNOW if they have a possible toxic exposure AND they have a Health/Medical, Benefits/Claims, VA Healthcare Enrollment and Eligibility, OR Registry Question during their initial screening.

    The follow up reminder will resolve when a response is entered regarding health concerns.

    It should be completed by a Primary Care Provider/TES navigator provider.

3. The reminder definition and reminder dialog VA-IRAQ & AFGHAN POST-DEPLOY SCREEN (print name Iraq&Afghan Post-Deployment Screen) will be inactivated. This reminder is no longer required for use.

4. The existing reminder definition and reminder dialog VA-EMBEDDED FRAGMENTS SCREENING (print name Screen for Embedded Fragments) were updated.

> Description:
>
>   Patients that have a service separation date after 09/11 should be screened for embedded fragments one time if they have not previously been screened. If the Veteran has a new service separation date later than the previous screening, it will come due again.

The VA-EMBEDDED FRAGMENTS SCREENING reminder will be due on patients that would have had the VA-IRAQ & AFGHAN POST-DEPLOY SCREEN reminder due.

Make sure the existing VA-EMBEDDED FRAGMENTS SCREENING (print name Screen for Embedded Fragments) is assigned at the same cover sheet level you have/had the VA-IRAQ & AFGHAN POST-DEPLOY SCREEN assigned.

No content changes were made to the VA-EMBEDDED FRAGMENTS SCREENING questions

UPDATE_2_0_307 contains 1 Reminder Exchange entry:
    UPDATE_2_0_307 TOXIC EXPOSURE SCREEN REMINDER

The exchange file contains the following components:

Install Details

This update is being distributed as a web host file. The address for the host file is:
https://REDACTED /UPDATE_2_0_307.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

Installation:
=============

This update can be loaded with users on the system. Installation will take less than 10 minutes.

Install Example

To Load the exchange file, use LWH. The URL is https://REDACTED /UPDATE_2_0_307.PRD

```
+              + Next Screen    - Prev Screen    ?? More Actions                 >>>

Select Action: Next Screen// Q
```
You will then be returned to this screen. At the **<u>Select Action</u>** prompt, type **<mark>Q.</mark>**
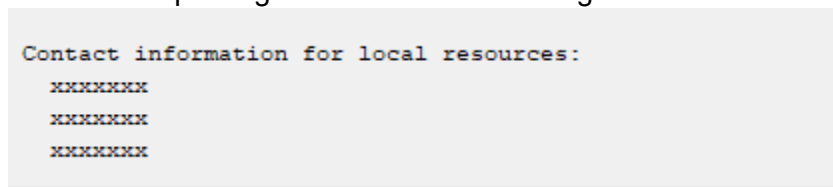

Install complete.

Post Installation

1. **Add local contact information to the reminder dialog element VAL-TOXIC EXPOSURE SCREENING LOCAL CONTACT INFO.** Facilities are responsible for providing contact information for local resources that align(s) with the items below. One Point of Contact (POC) may cover more than 1 topic (or all); or each facility may have a different POC for each question. At a minimum, recommend including Position title (i.e. PACT Act Coordinator, Social Worker, Environmental Health Coordinator, etc.) and telephone #.

```
* Ask the Veteran/caregiver if they have follow-up questions:

  ☐  Health/Medical Questions

  ☐  Benefits/Claims Questions

  ☐  VA Healthcare Enrollment and Eligibility Questions

  ☐  Registry Questions

  ☐  Veteran/caregiver does not have questions at this time.
```

You will be updating this section of the dialog to add contact information:

```
Contact information for local resources:
   xxxxxxx
   xxxxxxx
   xxxxxxx
```

In Vista, using the menu, Reminder Dialog Management, Reminder Dialogs, change your view to Element view. Search for and find the element VAL-TOXIC EXPOSURE SCREENING LOCAL CONTACT INFO. Edit the DIALOG/PROGRESS NOTE TEXT and replace the lines with "xxxxxxx" with the local contacts identified for the four items above and which areas they will answer questions for.
Example:

    Benefits/Claim Questions: Role/Title, xxx-xxx-xxxx
    VA Healthcare Enrollment: Role/Title, xxx-xxx-xxxx
    Registry: Role/Title, xxx-xxx-xxxx

This information should be available in the template before you turn this reminder on.

2. Update local record management information. In the paperwork reduction statement that is required to be read by nonclinical staff, there is a section for who to

contact with comments about the length of the survey. The text is defaulted to "HIMS for records management questions":

```
++ ALL STAFF, EXCEPT CLINICIANS:  Read the following to Veteran ++
  -Participation in this survey is voluntary
  -If you choose not to answer, it will not change your benefits
  -It should take less than 5 minutes to complete
  -All information is confidential as required by law
  -This survey follows the rules of the Paperwork Reduction Act
  -Our Office of Management and Budget number: 2900-0913, exp. 03/31/23
  -Comments about the length of the survey should be sent to
   HIMS for records management questions
```

This information is in the template field named VA-TOXIC CONTACT and can be changed locally by using the template field editor in CPRS.

It does not appear in the CPRS progress note.

3. Update local Veteran Service Officer (VSO) contact information. In the follow up reminder, there is a field for Veteran Service Officer, the text is defaulted now to "LOCAL VSO CONTACT NUMBER HERE":

```
* Veteran/caregiver has the following connections given:
   ☐ Consult/Referral to Registry Program
   ☐ Consult/Referral to TES Navigator
   ☐ Consult/Referral to Social Work
   ☐ Veterans Benefits Administration (VBA) for Benefits/claims: 1-800-827-1000
   ☑ Veteran Service Officer (VSO)  LOCAL VSO CONTACT NUMBER HERE
   ☐ None
```

This information is in the template field named VA-TOX EXP VSO and can be changed locally by using the template field editor in CPRS.

It does appear in the CPRS progress note when that option is chosen in the template

4. Add consult/referrals to follow up reminder.

The following elements can be used to place consult orders if your facility has a consult service for that item.

VAL-TOXIC EXPOSURE SCREENING REGISTRY EXAM CONSULT – represents a Consult/Referral to Registry Program

VAL-TOXIC EXPOSURE SCREENING REGISTRY EXAM TES NAV – represents a Consult/Referral to TES Navigator

VAL-TOXIC EXPOSURE SCREENING REGISTRY EXAM SOCIAL WORK – represents a Consult/Referral to Social Work

To add a quick order, in Vista, using the menu, Reminder Dialog Management, Reminder Dialogs, change your view to Element view. Search for and find the appropriate element and add your quick order as an Additional Finding – DO NOT CHANGE OR REMOVE THE HEALTH FACTOR IN THE FINDING FIELD.

5. Add the two new reminders to the cover sheet at the appropriate level –
You will use the Add Cover Sheet Reminder option in CPRS.
The new reminders should be added to your facility cover sheet reminder list **on or after Nov 7, 2022. You should not begin screening prior to this date.**

The print names are:

   A. Toxic Exposure Screen
   B. Toxic Exposure Screening Follow-Up

6. Confirm the reminder VA-EMBEDDED FRAGMENTS SCREENING (print name Screen for Embedded Fragments) is assigned to the cover sheet for any users that were responsible for completing the VA-IRAQ & AFGHAN POST-DEPLOY SCREEN reminder. This reminder was already existing and may already be assigned. The content of the reminder has not changed.
