Introduction

This reminder dialog is released as an optional opportunity to document colonoscopy follow-up recommendations provided by community care providers. The dialog is intended to be completed by community care staff to transcribe the future screening recommendations documented by an outside provider to reset the appropriate national CRC screening reminder and VSSC reports. Sites may use this reminder dialog if their facility policies and processes allow their staff to document follow-up colonoscopy recommendations that have been provided by community care providers. **Implementation of this dialog must be coordinated with the appropriate local Community Care and GI staff.**

The reminder dialog includes the national CRCS health factors follow-up interval recommendations. If an interval is selected, it will resolve the national Colonoscopy Gap Reminder, reset the national Colorectal Cancer Average Risk reminder or the Colorectal Cancer Colonoscopy Follow Up reminder, and remove the patient from the VSSC Gap Report for the applicable amount of time.

There are two implementation options for this dialog to assist in documenting recommended colonoscopy follow-up care from the community providers:

1. Use the reminder dialog template as a stand-alone by placing it in your Template Drawer under Shared Templates.
2. Link the VA-COMMUNITY CARE COLONOSCOPY RECOMMENDED FOLLOW-UP reminder dialog template to the COMMUNITY CARE-CONSULT RESULT COLONOSCOPY note title. You will need to instruct the end users to associate this note title to the COMMUNITY CARE-COLONOSCOPY consult when completing.

UPDATE_2_0_314 contains 1 Reminder Exchange entry:
