Introduction

This update installs the VA-AIRBORNE HAZARD AND OPEN BURN PIT reminder dialog, which replaces the VA-AH-BPR INITIAL EVALUATION NOTE reminder dialog released in PXR*2.0*39 in 2014. The original note title, AIRBORNE HAZARD/BURN PIT REGISTRY INITIAL EVALUATION NOTE should also be replaced with the new note title, AIRBORNE HAZARD AND OPEN BURN PIT REGISTRY ASSESSMENT.

The purpose of this template is to support the provider in a focused evaluation of a Veteran who requests an examination after completing the Airborne Hazards and Open Burn Pit Registry Self-Assessment. The template may also be useful for encounters where deployment health concerns are expressed regardless of whether the Veteran is participating in the registry. The template may be completed by a primary care provider, environmental health clinician, post-deployment champion, or a pulmonologist. This template is critical to improving the process and documentation of clinical care and facilitating high quality care and programmatic quality improvement.
