Introduction

This update is a revision to the previously released Lung Cancer Clinical Pathways templates (Update_246). Clinical pathways standardize evidence-based practices to ensure high quality, cost-effective care for patients at each point in their care plan. The Lung Clinical pathways templates will be used to document treatment decisions related to lung cancer. These templates were developed by the National Oncology Program Office in collaboration with an interdisciplinary team of subject matter experts, with the support of national program offices such as medical oncology, radiation oncology, surgery, pathology, and pharmacy. These templates will be used by all members of a Veteran's Oncology care team to document a treatment decision.

The purpose of these templates is to collect data on Clinical pathways utilization and will facilitate continuous process improvement efforts, which may result in a change to provider practice, local processes, or a change to the Clinical pathway recommendations. Recommendations are based upon national guidelines, published literature, and institutional experience with efficacy, toxicity, cost.

VHA Directive 1415 requires that all sites use the National Oncology templates. If your site does not provide oncology services, the site must request a waiver to exempt it from the requirement to use the National Oncology templates. The waiver can be requested by emailing REDACTED.

Changes in this update:

VA-ONCOLOGY LUNG EARLY-STAGE PATHWAYS

- NSCLC Clinical Stage IA/IB 14 new HFs, 24 no longer being used.
- NSCLC Clinical Stage IIA, IIB, and Resectable IIIA Excluding Single Level N2 and Pancoast Tumors name **changed**, added molecular testing in pathway, now NSCLC Clinical Stage IIA, IIB, and Resectable IIIA Excluding Pancoast Tumors for Patients Who Have Not Received Neoadjuvant Treatment
- NSCLC Clinical Stage IIA, IIB, and Resectable IIA Single Level N2, T2a-T2b, and T3 retired v4.2022; **changed** to NSCLC Clinically resectable IIA, IIB, and resectable IIA excluding Pancoast tumors

VA-ONCOLOGY LUNG LOCALLY ADVANCED PATHWAY

- Pancoast Tumors T4N1 or T4N0 no changes
- NSCLC Clinical Stage III Unresectable Multiple Level N2, Bulky N2, Any N3, Any T4 Due To Tumor Invasion Into Adjacent Structure First Line **changed** to NSCLC Stage III Unresectable Multiple Level N2, Bulky N2, Any N3, Any T4 due to Tumor Invasion into Adjacent Structure First Line

VA-ONCOLOGY LUNG FIRST LINE METS STAGE IV

- NSCLC Stage IVA M1b Single Extrathoracic Site (Oligometastatic Disease) or M1a due to a Contralateral Nodule at Presentation no change

- NSCLC Stage IVA Due to Pericardial/Pleural Effusion and Stage IVB First Line Mutation Positive no change
- NSCLC Stage IVA Due to Pericardial/Pleural Effusion and Stage IVB First Line Mutation Negative minor dialog rearrangement
- Squamous Stage IVB First Line no change

VA-ONCOLOGY LUNG RELAPSE PATHWAYS

- Non-Squamous Relapse minor dialog text changes
- Squamous Relapse no changes

VA-ONCOLOGY LUNG SCLC PATHWAYS

- Incidental Discovery no change
- SCLC Limited pathway 4 new HFs and dialog text changes
- SCLC Extensive stage pathway removed 4 HFs

SCLC Relapse no changes

UPDATE_2_0_341 contains 1 Reminder Exchange entry:

UPDATE_2_0_341 VA-LUNG CANCER PATHWAYS UPDATE

The exchange file contains the following components:

6 DIALOGS (UPDATING)

VA-ONCOLOGY LUNG EARLY STAGE PATHWAYS

VA-ONCOLOGY LUNG FIRST LINE METS STAGE IV PATHWAYS

VA-ONCOLOGY LUNG LOCALLY ADVANCED PATHWAYS

VA-ONCOLOGY LUNG PATHWAY

VA-ONCOLOGY LUNG RELAPSE PATHWAYS

Install Details

Prior to installing, you should check to see if you have any mapped quick orders to the below dialog elements. If you do, make a note of what those are, and you will want to add those back post install.

- VA-ONC RADIATION ONCOLOGY CONSULT
- VA-ONC LUNG REFER TO PALLIATIVE CARE
- VAL-ONC LUNG IVB POS 1ST OTHER

This update is being distributed as a web host file. The address for the host file is:
https://REDACTED/UPDATE_2_0_341_1.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

Installation:

=====

This update can be loaded with users on the system. Installation will take less than 5 minutes.

Install Example

Go to Reminder exchange in Vista.

To Load the exchange file, use LWH. The URL is

https://REDACTED/UPDATE_2_0_341_1.PRD

```
+      + Next Screen  - Prev Screen  ?? More Actions      >>>
CFE  Create Exchange File Entry      LHF  Load Host File
CHF  Create Host File                 LMM  Load MailMan Message
CMM  Create MailMan Message           LR   List Reminder Definitions
DFE  Delete Exchange File Entry       LWH  Load Web Host File
IFE  Install Exchange File Entry      RI   Reminder Definition Inquiry
IH   Installation History              RP   Repack
Select Action: Next Screen// LWH  Load Web Host File
Input the URL for the .prd file: https://[REDACTED]/UPDATE_2_0_341_1.PRD
```

You will see a message indicating the file was loaded successfully.

Search and locate an entry titled UPDATE_2_0_341 VA-LUNG CANCER PATHWAYS UPDATE in reminder exchange.

| +Item | Entry | Source | Date Packed |
|-------|---|--------|-------------|
| 473 | UPDATE_2_0_341 LUNG CANCER PATHWAYS UPDATE | | |
