Introduction

This update contains the following:

The Battlefield Acupuncture Protocol (BFA)/Battlefield Acupressure (BAA) template is being updated.

In several places where there is a score from 0-10, we have replaced 11 elements/health factors with one single element and health factor using the new numeric functionality with health factors.

We have also added CPT codes automatically to the encounter based on the type of treatment chosen.

This update increases performance and reduces the size of the template.

The questions or wording in any other section did not change.

1. Before: BFA/BAA Note: 0-10 radial buttons were available for the pain score and DVPRS Supplemental Questions.

Patient was evaluated and agreed to receive Battlefield Acupuncture Protocol (BFA)/Battlefield Acupressure (BAA) for the following pain condition(s), listed in order of highest pain rating if multiple pain sites:
