# Introduction

---

The Under Secretary for Health ensures clinician completion of comprehensive suicide risk evaluations including the discussion and documentation of firearms access and safe storage as required, and monitors compliance. The proposed modifications to the CSRE allows for alignment with Joint Commission requirements and Office of Inspector General required action items for compliance. Additionally, modifications to formatting are to enhance flow of clinical evaluation and documentation for users.

Update	Rationale
Added “Unable to Complete CSRE” section	Allows users to clearly document: <ul style="list-style-type: none"> <li>• Reason CSRE could not be completed</li> <li>• Efforts made to attempt completion</li> <li>• Risk mitigation plan for acute risk concerns</li> <li>• Follow-up plan for CSRE and mental health support, if indicated</li> </ul>
Changes to lethal means assessment and risk mitigation	<ul style="list-style-type: none"> <li>• More clearly differentiates and requires specific assessment and documentation of firearms access vs. other lethal means</li> <li>• Risk mitigation now includes space to document lethal means safety counseling for lethal means other than firearm.</li> </ul>
Added historical self-harm behaviors with unknown intent	<ul style="list-style-type: none"> <li>• Ease user review of previously reported potential suicidal behavior by pulling in data about behaviors reported in prior CSREs and SBORs where “unknown” intent was selected.</li> </ul>
Suicidal behaviors via overdose section expanded	<ul style="list-style-type: none"> <li>• Improve risk mitigation by expanding assessment of overdose to clarify if attempt involved opioid and/or stimulants and if naloxone was used to align with Naloxone Memorandum and CSRE overdose OEND sections to align with the SBOR.</li> </ul>
Risk mitigation strategies reorganized	<ul style="list-style-type: none"> <li>• Ease user identification of both general and setting specific risk mitigation strategies by requiring setting selection and including all relevant strategies in that setting’s menu.</li> <li>• Similar items are also clustered together to improve flow (e.g., acute risk response, environmental considerations, treatment and discharge planning)</li> </ul>

Required item to improve use of National HRS-PRF consult	<ul style="list-style-type: none"> <li>• Improve user compliance with submission of indicated HRS-PRF consults to local SPCs by including text describing when a HRS-PRF consult is mandated and requiring a yes or no response.</li> <li>• Local CACs will be instructed to attach the National HRS-PRF consult to this item.</li> </ul>
Opioid Overdose Education and Naloxone Distribution (OEND) section expanded	<ul style="list-style-type: none"> <li>• Facilitate effective use of OEND strategies via embedded text and links to educational materials to align with Naloxone Memorandum and CSRE overdose OEND sections to align with the SBOR.</li> </ul>

Additional information is available in the REDACTED.

**UPDATE\_2\_0\_348 contains 1 Reminder Exchange entry:**

## **Pre-Install**

---

1. Using the VistA menu Reminder Dialog Manager, Reminder Dialog, change your view to GROUPS and do an inquire/print on the following reminder dialog groups as you will need to use these as reference to use when adding orderable items during post-install:
  - VAL-NALOXONE REQUEST
  - VA-GP SUICIDE PREP BEHAVIOR YES
  - VA-GP SUICIDE PRIOR ATTEMPTS YES
  - VA-GP SUICIDE RISK ACUTE HIGH
  - VA-SBOR FOR MOST RECENT ATTEMPT N
  - VA-MOST RECENT METHOD OVERDOSE
  
2. Change your view to ELEMENTS and do an inquire/print for the following reminder dialog elements:
  - VAL-SUICIDE ACTION ALERT SPC
  - VAL-SUICIDE ACTION REF PSYCHOTHERAPY
  - VAL-SUICIDE ACTION REF CHAPLAIN.
  - VAL-SUICIDE ACTION REF PEER SUPPORT
  - VAL-SUICIDE ACTION CONSULT OTHER
  - VAL-SUICIDE ACTION VOC REHAB CON
  - VAL-SUICIDE ACTION SMI CONSULT
  - VAL-SUICIDE ACTION RESID CONSULT
  - VAL-SUICIDE ACTION REF PSYCHIATRY MEDICATION ASSESSMENT

Note: not all sites will have an order attached to these options

# Install Details

This update is being distributed as a web host file. The address for the host file is: [https://REDACTED/UPDATE\\_2\\_0\\_348.PRD](https://REDACTED/UPDATE_2_0_348.PRD)

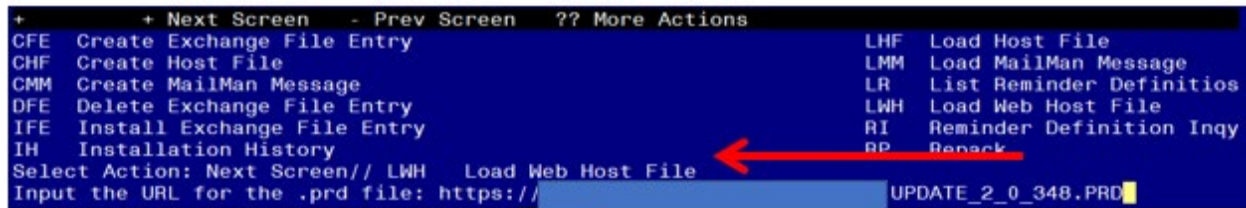

The file will be installed using Reminder Exchange, programmer access is not required.

Installation:  
=====

This update can be loaded with users on the system. Installation will take less than 30 minutes.

# Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

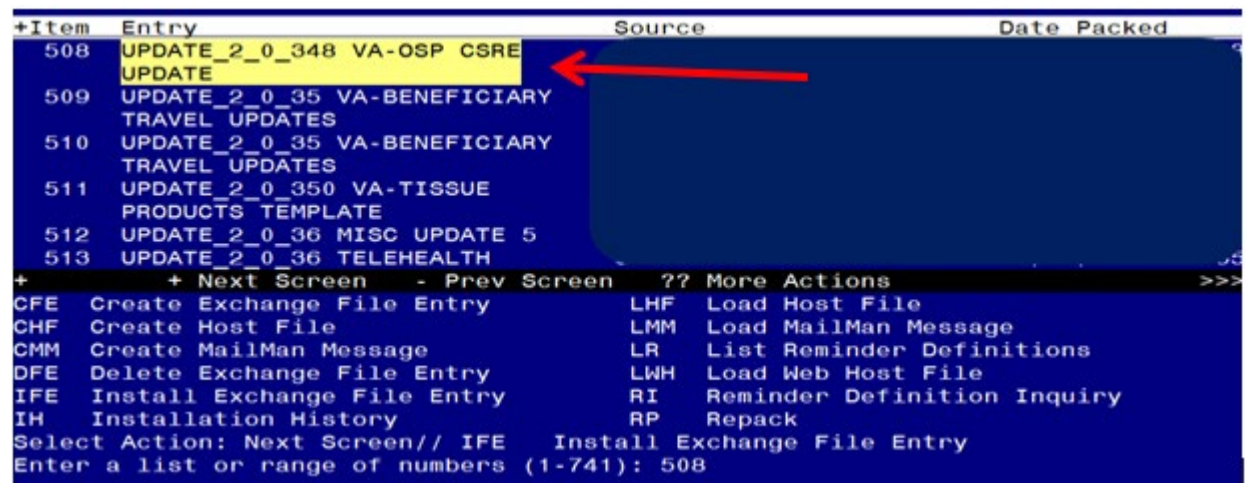

```
+      + Next Screen  - Prev Screen  ?? More Actions
CFE  Create Exchange File Entry      LHF  Load Host File
CHF  Create Host File                 LMM  Load MailMan Message
CMM  Create MailMan Message           LR   List Reminder Definitios
DFE  Delete Exchange File Entry      LWH  Load Web Host File
IFE  Install Exchange File Entry      RI   Reminder Definition Inqy
IH   Installation History             RP   Repack
Select Action: Next Screen// LWH  Load Web Host File
Input the URL for the .prd file: https://REDACTED/UPDATE_2_0_348.PRD
```

At the **Select Action:** prompt, enter **LWH** for Load Web Host File  
At the **Input the url for the .prd file:** prompt, type the following web address:  
[https://REDACTED/UPDATE\\_2\\_0\\_348.PRD](https://REDACTED/UPDATE_2_0_348.PRD)

You should see a message at the top of your screen that the file successfully loaded.

Search for and locate the reminder exchange entry titled UPDATE\_2\_0\_348 VA-OSP CSRE UPDATES.

+Item	Entry	Source	Date Packed

**You will see several prompts:**

For all new components, choose **I to Install**

**For existing components, choose S to Skip with one exception**, for the health summary type VA-SBOR EVENT DATE choose **O to Overwrite**.

HEALTH SUMMARY TYPE entry named VA-SBOR EVENT DATE already exists but the packed component is different, what do you want to do?

Select one of the following:

- C Create a new entry by copying to a new name
- O Overwrite the current entry
- U Update
- Q Quit the install
- S Skip, do not install this entry

Enter response: **O// overwrite the current entry**

Are you sure you want to overwrite? N// **YES**

You will be prompted to install the dialog component:

You will be returned to this screen. Type Q to quit.

Install Completed

## Post Installation

---

1. Launch the **VA-OSP SUICIDE RISK ASSESSMENT (NOTE TITLE: COMPREHENSIVE SUICIDE RISK EVALUATION)** and confirm the version number is 3.2.
2. Add the orderable items and local information within the dialog:  
There are several components for local information, identification of local contacts, and/or referrals. These groups and elements are all classified as local so that you can update, add to, or remove elements if needed. If you are unsure what information and/or order(s) to add, consult with your local services to determine what is appropriate for each section.

Using the menu, Reminder Dialog Management  Reminder Dialogs, Change the view to dialog and search for the reminder dialog VA-OSP SUICIDE RISK ASSESSMENT. Within that dialog, you can search for the following components and edit.

For several of the elements listed below, please review your saved inquiry from the pre-install. Do NOT remove the national health factors attached to these elements. If you did not have an order previously on an element, you can discuss with your suicide prevention team to see if they would like to add one.

- a) Add the order for naloxone that was identified in the pre-install inquiry to the reminder dialog group VAL-NALOXONE REQUEST.

- b) If your site previously mapped a quick order used to notify your suicide prevention coordinators, you can add this quick order as an additional finding to the dialog group VA-SBOR FOR MOST RECENT ATTEMPT N. This will alert your team when a new suicide attempt is documented if your order is set up appropriately.
- c) Add your quick order that represents a High Risk for Suicide Patient Record Flag E-consult as an additional finding to the dialog element VAL-SUICIDE ACTION ALERT SPC YES. \*\*NEW ELEMENT
- d) If your site previously mapped a quick order used to notify your suicide prevention coordinators, you can add this quick order as an additional finding to the dialog element VA-GP SUICIDE PREP BEHAVIOR YES .
- e) If your site has a quick order that is used to notify your suicide prevention coordinators, you can add this quick order as an additional finding to the dialog element VA-GP SUICIDE PRIOR ATTEMPTS YES.
- f) If your site previously mapped a quick order used to notify your suicide prevention coordinators, you can add this quick order as an additional finding to the dialog group VA-GP SUICIDE RISK ACUTE HIGH.
- g) If your site previously mapped a quick order used to notify your opioid risk review team when an overdose has been reported, you can add this quick order as an additional finding to the dialog group VA-MOST RECENT METHOD OVERDOSE. This will alert your team when a new suicide attempt with a method of overdose is documented if your order is set up appropriately.
- h) Add a quick order that represents a referral or consult for evidence-based psychotherapy as an additional finding to the element VAL-SUICIDE ACTION REF PSYCHOTHERAPY.
- i) Add a quick order that represents a referral or consult to your Chaplain/Pastoral service as an additional finding to the element VAL-SUICIDE ACTION REF CHAPLAIN.
- j) Add a quick order that represents a referral or consult to your peer specialist program as an additional finding to the element VA-SUICIDE ACTION CONNECT PEER SUPPORT.
- k) Add a quick order that represents a referral or consult to you're a "recovery buddy" or peer specialist program as an additional finding to the element VA-SUICIDE ACTION CONNECT PEER SUPPORT REC BUDDY. \*\*NEW ELEMENT

- l) Add the menu name for your consult menu to the option VAL-SUICIDE ACTION CONSULT OTHER if appropriate. In the dialog, this represents Other Referral/Consult. If you do not want a menu to automatically open when the user clicks finish, do not map anything.
- m) Add a quick order that represents a referral or consult to vocational rehabilitation/occupational rehabilitation services as an additional finding to the element VAL-SUICIDE ACTION VOC REHAB CON.
- n) Add a quick order that represents a referral or consult to psychiatry/medication assessment or management services as an additional finding to the element VAL-SUICIDE ACTION REF PSYCHIATRY MEDICATION ASSESSMENT.
- o) Add a quick order that represents a referral for Psychosocial Rehabilitation and Recovery Center (PRRC) and/or Intensive Community Mental Health Recovery (ICMHR)/Mental Health Intensive Case Management (MHICM) services as an additional finding to the element VAL-SUICIDE ACTION SMI CONSULT.
- p) Add a quick order that represents a referral or consult to residential mental health services as an additional finding to the element VAL-SUICIDE ACTION RESID CONSULT.
- q) Add a quick order that represents an additional referral or consult to residential mental health services as an additional finding to the element VAL-SUICIDE ACTION RESID CONSULT RRTP. \*\* NEW ELEMENT
- r) Add a quick order that represents a referral or consult to homeless program services as an additional finding to the element VAL-SUICIDE ACTION REFER HOMELESS PROGRAM \*\*NEW ELEMENT
- s) Add a quick order that represents a consult to Suicide Prevention Telehealth program (SP 2.0) for Suicide Prevention Evidence-based Psychotherapy as an additional finding to the element VA-SUICIDE ACTION TO SP TH PROGRAM \*\*NEW GROUP
