Introduction

The first release of the Caregiver Program Assessment and Application Part II CPRS template occurred in spring 2011. Upon application of this template in the field, a thorough analysis and review of the template by Caregiver Support Coordinators and the Program Office was conducted. From that review, the decision was made to modify the template to address true needs of Caregivers participating in the program. These modifications to the template will improve the overall Caregiver assessment by assessing the Caregiver's ability to care for the Veteran as well as the Caregiver's needs and concerns. Further, it provides the opportunity to document interventions and actions that occurred during the assessment process. To correlate with these changes, the new title to be used with this template is Caregiver Program of Comp Assistance - Caregiver Assessment.

The new note title that needs to be created is:

CAREGIVER PROGRAM OF COMP ASSISTANCE - CAREGIVER ASSESSMENT

This note title is to be mapped to the following VHA Enterprise Standard Title:
CAREGIVER CERTIFICATE

IMPORTANT:

This new note title CAREGIVER PROGRAM OF COMP ASSISTANCE - CAREGIVER ASSESSMENT will replace the previous note titled Caregiver Program Assessment and Application Part II.

**** Please coordinate with the Caregiver Support Coordinator(s) at your facility to *inactivate the old note title and associated reminder dialog* after they have been trained on the new note/template.**

Comprehensive information on Creating Document Definitions can be found beginning on page 47 of the [TIU/ASU Implementation Guide](#)
