Date updated: 08/02/2018

National Reminder Content under development:

1. **Update_2_0_15 Statin Reminder Update –** This project is under development. Testing should begin soon.
2. **Update_2_0_25 VA-ECOE template updates** - this reminder dialog has been approved for pilot site testing and is completing development
3. **Update_2_0_34 VA-WH PAP**- Updates to WH PAP screening are being tested at test sites now. The final version went to test sites the week of Jul 16. .
4. **Update_2_0_41 VA-Functional Review** -   A comprehensive functional review is needed in the EHR for the review of individual Veteran function in order to provide patient-centered care, support clinical decision-making, facilitate communication among health care providers and programs, and to provide an infrastructure of comparable information about the VHA patient population. Testing is in progress and should release soon. Use of this template will not be mandated.
5. **Update_2_0_43 VA-Comprehensive Suicide Risk Assessment** - this reminder dialog has been approved for pilot site testing. This very detailed suicide risk assessment is to be completed as a third level suicide risk assessment when the patient scores positive on the PHQ-9 and then has a positive Columbia Suicide Screen. Testing is ongoing now with an anticipated release before the end of July. There will be a 10N memo mandating use of this template.
6. **Update_2_0_47 VA-Hepatitis B Immunization**. There are two reminders that have been approved by the National Reminder Workgroup. Testing has started on this update
7. **Update_2_0_46 VA-Tobacco Use Screening** – a new national reminder for tobacco use screening that aligns with the HEDIS measures. Testing has started on this update.
8. **Update_2_0_49 VA-Suicide Behavior And Overdose Report (SBOR)** - this reminder dialog is in testing now.
9. **Update_2_0_50 VA-PHQ9 Monitoring –** This has not been approved yet but will likely be approved as it is a MH measure. Test sites will be needed
10. **Update_2_0_52 VA-Intimate Partner Violence** reminder dialog template. This template has been approved and will begin pilot site testing soon.
11. **Update_2_0_57 CASE MIX TOOL** - The Case Mix Tool (CMT) allows the VA provider to electronically capture data on clinical conditions that will determine a level of care for GEC Purchased Home and Community Based Services. The CMT is a key component of building a consolidated, standardized, Community Care process for managing all consults, and will integrate with the ONE CONSULT model. The implementation is sponsored by the VHA Office of Geriatrics & Extended Care (GEC) in partnership with the Office of Community Care (OCC) and Care Management and Social Work Services.The CMT is part of the clinical decision making process for setting up PCS. The CMT aides in determining a level of care for PCS after eligibility has been established. The CMT is a strategy for providing clinically appropriate care to Veterans consistently across the VHA.
    This has been approved and will begin testing soon
12. **Update_2_0_58 Lung Cancer Dialog Updates** – The changes to the lung cancer dialogs reflect the new 8th edition staging recommendations that came out in 2018.

There are also new FDA approved chemotherapy agents that have been added.
This has been approved for testing and will begin testing soon

13. **Update_2_0_55 VA-Golden Age Games** - new reminder dialog template for national distribution to address identified needs of the National Veterans Golden Age Games to capture medical data to clear Veterans to participate in the Games at the time of screening This has been approved for testing and will begin testing soon

14. **Update_2_0_53 Mental Health Updates** - addition of new MH instruments to Depression and PTSD reminders. Development is being completed now and will start testing in conjunction with MH patch testing to release after MH patch compliance date.

15. **Update_2_0_61 VA-Community Care Hospital Note** - The community care program office would like to distribute an update to the reminder dialog template VA-COMMUNITY CARE HOSPITAL NOTICATION NOTE.
